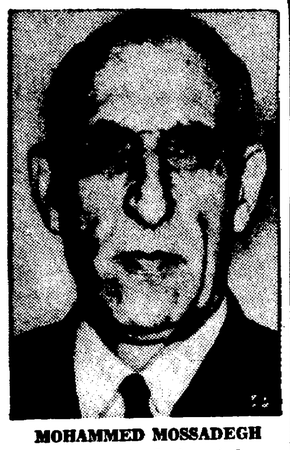
RUSSIANS TOUCH OFF HYDROGEN BLAST

U.S. Official Confirms Test, Cites Our 2-Year Lead

Ousted Mossadegh Captured; Shah Prepares To Fly to Iran



MOHAMMED MOSSADEGH
Ex-Premier Is Arrested

Old Premier, Aides Nabbed By Royalists

He'll Be Given Trial, Says New Leader, Who Headed Royalist Coup

BULLETIN

TEHRAN, Iran (AP) — Premier Fazollah Zahedi's forces today arrested Mohammed Mossadegh and three of his lieutenants in a house in the center of Tehran.

TEHRAN, Iran (AP) — Iran's new royalist Premier Fazollah Zahedi today gave his fugitive predecessor, wily old Mohammed Mossadegh, 24 hours to surrender.

In Rome, Shah Mohammed Reza Pahlevi hurried preparations to fly back to the homeland from which he fled four days ago.

Zahedi in a radio broadcast invited Mossadegh to surrender to police headquarters or Tehran's military governor and added, "Then we will wait for the nation to say what should be done with him."

(Tehran radio, in a broadcast heard in London an hour and a half after this dispatch was telephoned to the British capital, said Mossadegh, his wife and children had been removed from the Iranian capital under the protection of the new government.

Life Spared, Radio Says

(The later radio broadcast quoted Zahedi as saying the Shah had told him to save Mossadegh's life. The ex - Premier, Zahedi said, would be given a public trial, however.

The Iranian mob which had kept the British-hating Mossadegh in power for 28 months drove him out yesterday—with hundreds dying in the last-ditch stand around a Hitler-type bunker at his home—and installed the Premier the Shah had named last weekend.

Objects of Hunt

Mossadegh and his chief henchman, Foreign Minister Hossein Fatemi, were the objects of a nationwide hunt today. Earlier reports that the mob had "torn Fatemi to bits" apparently were in error.

The ex-Premier's furniture, pillaged by the mob, was on sale in the city bazaar—at reduced prices.

Officials in London hoped Zahedi would move quickly to settle Mossadegh's two-year-old battle with Britain over the nationalized properties of the British-owned Anglo-

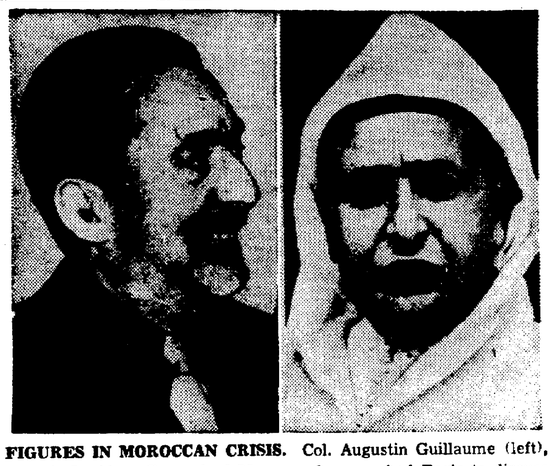

FIGURES IN MOROCCAN CRISIS. Col. Augustin Guillaume (left), French Resident General of Morocco, has reached Paris to discuss with his government the Moroccan crisis touched off by Sultan Sidi Mohammed Ben Youseff (right). Recently 29 persons were killed in clashes. Before leaving, Guillaume urged the people to remain calm and peaceful during the crisis.

Soviets Say Bomb Yields Great Power

Many Times Stronger Than A-Bomb, Moscow Announcement Claims

MOSCOW (AP)—The Russians announced today that they have exploded a test hydrogen bomb of "great strength." They coupled their claim with a new call for international acceptance of a Russian disarmament plan including a ban on atomic weapons.

(In Washington, the Atomic Energy Commission confirmed that it had information on a Soviet "hell-bomb" test conclucted Aug. 12 but implied that the United States had produced similar reactions in the 1951 and 1952 tests at Eniwetok Atoll.)

Official Announcement

This was the official Soviet announcement, as reported in the Communist party newspaper Pravda and broadcast by the Moscow radio to the Soviet people:

"Recently in the Soviet Union, the explosion of a type of hydrogen bomb was carried out with experimental aim. As a result of the possession of the mighty power of thermonuclear fission in the hydrogen bomb, the explosion was of great strength.

"The test showed the power of the hydrogen bomb is many times greater than the power of atomic bombs."

The communique received only routine treatment in Pravda, appearing on page 2 under the heading: "Government Information on the Test of the Hydrogen Bomb in the Soviet Union."

Should Cause No Alarm

The communique declared Soviet possession of the H-bomb offered no cause for alarm among peoples of other countries. It said the Russian government still favored international disarmament and a ban on weapons of mass destruction.

Recalling that Prime Minister Georgi M. Malenkov told the Supreme Soviet (Parliament) Aug. 8 that the United States no longer held a monopoly of the hydrogen bomb, the statement charged that Malenkov's remarks had been used abroad "to cause alarm, using it with the aim of intensifying the armaments drive."

"The Soviet government considers it necessary to declare there

(Turn to SOVIET, Page 10)

THAT'S HER DADDY. Four-year-old Diane Brusca tugs for attention of her daddy, Patrolman Sebastian Brusca, at City Hall ceremony at New York City when he was sworn into the police force.

Experiments Said Similar To America's

Whether or Not Either Has True H-Bomb Still Unknown to Public

WASHINGTON (AP)—The United States today confirmed Russia's boast of having touched off a hydrogen explosion but implied that this country has a two-year lead in the race to perfect the most awesome weapon known to science.

Whether either country has yet developed a true H-bomb—that is, a device compact enough to be carried aboard a warplane—remains unknown to the public.

The Communist newspaper Pravda said in Moscow late last night "the explosion of a type of hydrogen bomb was carried out with experimental aim."

AEC Chief Makes Disclosure

This prompted chairman Lewis L. Strauss of the Atomic Energy Commission (AEC) to announce early today that:

1. U. S. atomic sleuths had in fact detected a Soviet atomic blast eight days ago and then later determined that both convention and H-type reactions were involved.

2. U. S. atomic tests in the Pacific in both 1951 and 1952 involved similar reactions.

There was no immediate explanation of why the United States waited for the Russian boast before putting out its own announcement.

Pressure has been mounting in Congress and elsewhere for President Eisenhower to tell the world more about the status of the U. atomic weapons program.

That pressure is certain to build up even more now.

Describes Hydrogen Explosion

Strauss' statement, issued shortly after midnight, said:

"The Soviet Union conducted an atomic test on the morning of Aug. 12. Certain information to this effect came into our hands that night. Subsequent information on the subject indicates that this test involved both fission and thermonuclear reactions."

"Thermonuclear" is the word scientists use to describe a hydrogen explosion. Unlike conventional uranium bombs, which produce their energy from the fission or splitting of atoms, the hydrogen bomb would get its explosive force

West Reluctant To Yield on Korean Parley

U.S. Delegate Rejects Vishinsky Proposal; More Details Awaited

UNITED NATIONS, N. Y. (AP)—The major Western nations turned a cold shoulder in the U.N. today to some talk of compromising East-West differences over the makeup of the Korean peace conference.

Russia's position, as partly set forth by Andrei Y. Vishinsky yesterday, already had drawn a quick rejection from Chief U. S. Delegate Henry Cabot Lodge Jr.

An aide said Vishinsky might take the floor for further explanations today after the debate resumes in the 60-nation General Assembly Political Committee.

First on the speakers' list today were Czechoslovakia, a Soviet satellite and one of the members of the Prisoner of War Repatriation Commission, and Turkey, which had troops under the U.N. banner in Korea.

A host of small countries were expected to follow them. Some already were hinting at possibilities of a compromise, but one Western spokesman said he could see no

Ronald Keller County's 18th Polio Patient

Number of polio cases in Marion, city and county, continued a slow but steady climb today with report of the 11th case in city by Dr. M. M. Weinbaum, health commissioner boosting the county total to 18.

Latest victim of the disease is Ronald Keller, 8, son of Mr. and Mrs. Robert Keller of 1199 E. Church St.

Ronald first became ill on Aug. 16 and was taken to Children's Hospital in Columbus yesterday where his illness was confirmed as polio.

Dr. Weinbaum was to quarantine the family's residence this morning and give gamma globulin to Ronald's older brother, John, 11.

This was the second case reported in the city this week. Illness of Richard Frazier, 13, of 226 E. Farming St. was confirmed as polio on Monday. He had been ill since Friday.

In addition to the 11 cases in the city this summer, seven others have been reported by the Marion County Board of Health.

Ohio Educators To Inspect New Marion School

110 Invited To Meet Saturday for Lunch, Tour of Harding High

Representatives of a numebr of school districts and colleges from throughout the state have been invited to gather here Saturday for a preview of the new Harding High School.

Included in the contingent which will meet at the school for lunch and a guided tour of the building are representatives from 29 school districts, the state board of education, and nine colleges. Altogether some 110 educators have been invited.

Most of those who will attend the meeting are interested in the building plan of the school.

Representatives from the state department of education will be A. D. St. Clair, agent for the di-

French Depose Sultan; Tanks Patrol Palace

Removal of Morocco Leader Victory for Pasha of Marrakech

PARIS (AP) — A French news agency dispatch from Rabat said the Sultan of Morocco has been removed from his throne.

The dispatch said an announcement of the removal came just as Gen. Augustin Guillaume, the French resident general, had gone into the palace of Sultan Sidi Mohammed Ben Youssef. The palace was surrounded by 30 French tanks and other armed vehicles.

The French said the Sultan would be taken away from Rabat, the capital of the North African protectorate.

The news agency dispatch did not indicate who would succeed the 44-year-old monarch, who has been a thorn in the side of the French in recent years because of his growing benevolence toward fiery nationalists who have been demanding independence for their country.

Deposing of the sultan, who succeeded his father in 1927, was a victory for the wealthy, pro-French Pasha of Marrakech, Thami El Glaoui, a powerful leader of Berber Hill tribesmen, who accused the monarch of violating his religious vows by taking a hand in politics.

Presumably, the French decision to take sides with El Glaoui, their best friend in Morocco for 40 years, against the Sultan, whom they were sworn to protect under their treaty of 1912, was taken at a French Cabinet meeting in Paris today.

After long agitation, El Glaoui summoned a mass meeting of chiefs and aids at Marakech last weekend and demanded the Sultan's ouster.

The upshot was that he engineered a coup in which he proclaimed Moulay Mohammed Ben Arafa, uncle of the sultan as the new Imam, or religious leader. The sultan nominally is both temporal and religious ruler of Morocco, but his religious powers were the basis of his rule. The sultan indignantly defied El Glouia.

Egypt Must Prepare For War, Leader Says

CAIRO, Egypt (AP)—Egypt's acting president, Vice Premier Gamal Abdel Nasser, opened the Moslem Feast of Bairam today with a call for Egyptians to prepare for total war against "British occupation."

His warning to Britons to evacuate their military forces from the disputed Suez Canal zone was cheered wildly by an estimated 100,000 Egyptians packing the big square outside the former royal palace. Nasser spoke in the absence of President Mohamed Naguib, who is on a pilgrimage to Mecca.

150 Americans Due Tomorrow

Exchange of Prisoners Passes Half-Way Mark

PANMUNJOM (AP)—The great Korean War prisoner exchange passed the halfway mark today and there was every indication the Reds will start sending back larger numbers of Americans daily.

They promised 150 tomorrow, the biggest U. S. group yet, and it appeared the stepped - up rate would continue indefinitely. Three hundred South Koreans also will be freed tomorrow.

Sixty Americans, 90 British and 300 Koreans were freed today in the 16th day of exchange at this tiny village.

No British Friday

No British were scheduled to return Friday. The Reds have delivered 809 of the 922 British promised. They have turned over only 1,315 Americans, well under half of the 3,313 they listed.

Thursday's shipment brought the number of Allied troops freed to 6,533, just over half of the 12,763 the Reds promised.

No Communists were sent north Thursday and no more are scheduled until Saturday. Typhoon conditions disrupted Allied shipping from the Koje Island prison camps off southern Korea.

Tell More Grim Stories

One weary American repatriate Thursday was startled with the news that he had won America's highest combat award, the Medal of Honor. The story had been kept secret to prevent any Red reprisals against the 27-year-old Japanese-American sergeant, Hiroshi Miyamura of Gallup, N. M.

The stream of happy men Thursday told more of the grim stories of life in the Red stockades.

One prisoner told a heartbreaking story of an American airman staked in the sun and left to die because he would not back up phony germ warfare charges by the Communists.

Shortly after the prisoners returned, the joint Military Armistice Commission met at its Panmunjom headquarters on Red request.

The Reds gave no indication what they wanted to discuss.

Red China's Peiping radio charged that American authorities have obstructed Communist Red Cross teams visiting prison camps in South Korea to the point that the teams "have virtually suspended their operations."

Peiping accused the Americans of "openly persecuting" the teams and restricting interviews with the POWs.

Says 8,000 Being Held

However, Allied representatives accused the Communist workers of activities bordering on spying and told them to stop it. They told the Reds to limit their activities to authorized humanitarian missions.

A South Korean repatriated Thursday added to the stories of a Red POW holdout. He said the North Korean Army has a brigade of at least 8,000 South Korean prisoners who wouldn't be repatriated.

He said thousands of other South Korean prisoners were working more than 20 hours a day in forced labor.

The UNC warned the Reds that

(Turn to PRISONERS, Page 10)

Marion Man Escapes Bank Robbery Term

A 20-year prison term on a 1940 bank robbery charge in Charleston, W. Va., was suspended Tuesday for a Marion man, Elmer H. Whitt, 41.

Whitt reported to Charleston on the robbery charge after his parole last week from the Ohio Penitentiary where he was serving a life term for another bank robbery. The Charleston robbery sentence was to begin when the Ohio sentence expired.

He was one of three Ohioans, one an Ivan Phillips, also of Marion, who were sentenced to 20 years in prison in 1940 for the daylight Charleston bank robbery in which $19,227 was taken. Phillips since has died and the third man, Arthur R. Howell of Columbus is in the federal penitentiary at Leavenworth, Kansas.

Federal Judge Ben Moore placed the Marion resident on five years' probation and noted that Whitt had been in prison 13 years. He said if Ohio authorities considered Whitt worth rehabilitating, he would cooperate.

New Strike Orders Go Out in France

PARIS (AP)—New strike orders went out today from non-Communist unions to hundreds of thousands of workers in the metal industries and building trades.

They were 48-hour stoppages directed to begin tomorrow, but workers were already reported walking off the job in big plants like the nationalized Renault auto factory in Paris which employs 37,000.

15-Year Study

Kinsey Report Charts Behavior of Women

By ALTON L. BLAKESLEE
Associated Press Science Reporter

BLOOMINGTON, Ind. (AP) — The new Kinsey report released today finds women stay young longer than men in sex activity.

Human sex lives, it also finds, are as different as fingerprints.

Psychological Differences

The only basic sex difference between men and women is mental or psychological, the female book says. Most women—with some surprising exceptions—aren't aroused as often as men by sights, talk, or anticipation of sex.

Most women need steady physical contact to achieve sex satisfaction.

As many persons suspected, it finds the roaring 20s really brought a sharp change in American women's sex lives. They changed toward less frigidity in marriage, and more experience and freedom before marriage.

Findings Published

Dr. Alfred C. Kinsey authorized publication today of the scientific findings in his long-awaited second book, "Sexual Behavior in the Human Female."

The Marion Star today publishes stories of the Kinsey report on women as written by Alton L. Blakeslee, science editor of The Associated Press. The report is based on a long and painstaking scientific study of an intimate subject and will have a profound meaning to millions of Americans. Newspapers have a responsibility to present Dr. Kinsey's findings in a straightforward, factual and understandable way so that their impact on human relations will not be misdirected.

It is more than just statistics or candid confessions of what women do. By comparing men and women, it offers keys for happier marriages and sounder sex laws. Five unusual chapters tell the full science of sex.

Some main findings are:

Ten per cent of wives remain frigid, never experiencing a sexual climax. So do 28 per cent of older single women. Yet many such inexperienced women advise youths about sex, or help draft sex laws.

One in four wives—26 per cent or more — at some time commits

Secrets Stolen, Says Woman

McCarthy Makes Public Testimony on Code Theft

WASHINGTON (AP) — Senate investigators made public today sworn testimony by a former government printing office (GPO) employe that she knew Edward Rothschild took a code book and other secret military data from the plant during World War II.

The testimony had been received previously in secret session from Miss Cleta Guess, now a New Orleans storekeeper.

Chairman McCarthy (R - Wis) said Miss Guess could not testify in person today because she has a heart condition and her doctor advised her to avoid excitement.

Decined To Answer

Rothschild, a bookbinder, declined earlier this week to tell the Senate Investigations subcommittee whether he is a Communist or whether he ever engaged in espionage at the printing office, which handles much secret data.

Before Miss Guess' testimony was released, the subcommittee had Jack Zucker of Philadelphia in its witness chair.

Zucker was called at the request of Rothschild and his wife, but declined to say whether he knew Rothschild. He also refused, on grounds of possible self-incrimination, to say whether he ever presided at a Communist hearing which tried Rothschild on a charge of "white chauvinism."

Wife Wouldn't Talk Either

"White chauvinism" means, McCarthy said, refusal to treat members of the Negro race on terms of full equality with white people.

Rothschild, 42, was suspended from his GPO job immediately after his refusal to testify before the Senate group.

His wife, Esther, similarly refused to tell the subcommittee whether she ever spied against this

CHILD DIES OF INJURIES

WOOSTER, Ohio (AP)—An 11-year-old girl died today at Wooster Community Hospital of injuries she received yesterday when she was hit by a car. She was Barbara Campbell, daughter of Mr. and Mrs. John O. Campbell, R. D. 2

Ike Flies Back To Denver; Has H-Bomb Report

DENVER (AP)—President Eisenhower was back at the summer White House today with a top secret report on how the United States learned about Soviet Union tests indicating Russia may have the hydrogen bomb.

Eisenhower had no comment on the Moscow newspaper Pravda's statement last night that Russia recently touched off a hydrogen bomb explosion.

Presidential Press Secretary James C. Hagerty told newsmen there would be no elaboration here on the Atomic Energy Commission's quick follow - up announcement in Washington that the Soviet conducted tests Aug. 12 — which, on the basis of the commission's information, involved "both fission and thermonuclear reactions."

Fission means atomic tests while thermonuclear is the technical term for hydrogen bomb activity.

Eisenhower returned to his vacation headquarters here by plane last night from New York.

There, at the dedication of a housing project, he declared that families with a proper and decent living standard constitute a better defense against communism than "any bomb of whatever kind."

"That is the kind of thing that will preserve this nation," the Chief Executive said in a brief speech at the dedication ceremonies.

There is no doubt now that Eisenhower made his remark about defense against any kind of bomb after receiving a secret report on the Soviet tests.

When he arrived in New York

Homes of the Famous-5

1835, ASTORIA, New York. Home of JOHN JACOB ASTOR

This stately Colonial mansion, named Astoria, once stood far away from New York City and was used by John Jacob Astor as a summer residence. In 1835 or thereabout, Washington Irving was here, studying old maps and documents in preparation for writing the story of Astor's conquest of the Northwest. In a letter, Irving spoke enthusiastically of the delightful quiet and restfulness of Astoria, the spacious, well-built house, with its lawn in front, and its lovely garden in the rear. The broad lawn swept down to the water's edge and, from it, one could gaze at the constantly moving picture of the little strait of Hell Gate not far distant. Here, the old gentleman kept bachelor's hall, and it was here that plans for his great benefaction, "The Astor Library" were developed. This once quiet refuge from the turmoil of the then distant city has long been obliterated by modern buildings.

By The Associated Press

New Gadget Curbs Speeding Drivers

ROCHESTER, N. Y. (UP)—A local inventor has a new gadget for cars he thinks will eliminate that tired excuse—"Honest, I didn't think I was going that fast."

Fred DeLorenzo's gadget is the "Speedinformer," which does just that. It informs the driver when he has attained a certain speed.

A tiny box, the device hooks underneath the dashboard along with a small buzzer. A control knob attaches to the front of the dash. The whole business connects with the speedometer, and DeLorenzo claims it is just as accurate as the speedometer.

The knob sets the gadget to ticking at a particular speed. The faster the speed, the closer together the ticks, until there is a long buzz. That's the warning for the driver to ease up on the accelerator.

TWO CAREERS

LAUREL, Miss. (UP) — Police here raided a moonshine whisky still in the basement of the First Baptist Church. The janitor had hooked the illicit distillery up to the church furnace.

Wedding Service Read At Galion Residence

Special to The Star

GALION—In a quiet home ceremoney, Miss Gertrude Keckler of Galion became the bride of Pearl Hill of Elyria. The single ring service was read Sunday afternoon, Aug. 16, at 1 o'clock, by the Rev. William Willard, pastor of the Open Bible Church of Mansfield, at the home of the bride's parents, Mr. and Mrs. William Keckler.

Miss Grace Keckler was her sister's only attendant. David Keckler, brother of the bride, was best man. The bride's eldest sister, Mrs. Rosanna Weldon, played the wedding march.

Following the ceremony, there was a reception for 46 relatives and friends at the home.

The former Miss Keckler attended Galion schools. Mr. Hill is the son of Mr. and Mrs. John Hill of Cambridge. He is engaged in office work in Elyria where the couple will live.

During the lifetime of President Thomas Jefferson, three other Presidents were frequent guests at Monticello, his home—John Adams, James Madison and James Monroe.

Food Supply In 'Liberated' Tibet Scarce

Occupation Forces Of Communists Use Up Meager Stocks

KALIMPONG, India (UP)—The food situation in Tibet is reported to be getting worse with food hard to get and prices rising.

Barley, the staple food of Tibet, sells at six times the price before the Chinese Communists took control. Meat, butter and other foods also have become very expensive.

The insufficient supplies and high prices are blamed on the presence of 30,000 Chinese "liberation" troops who are living off the land. Their presence is causing discontent, expressed in some places by popular demonstrations.

Posters on village walls demand the withdrawal of these troops and demand food at prices the people can afford. There has been a growth in crime because of the scarcity of food.

Supplies Rationed

Chinese authorities in Tibet are taking steps to combat this dangerous situation. Surplus food stocks in the hands of private dealers and cultivators were requisitioned and rationing was introduced. But this policy failed because the quantity of food procured was not enough.

The government, therefore, decided to keep part of what it procured for an emergency and distributed the remainder in areas where food is not available.

A proposal to fly food to Tibet from China was dropped as impracticable. Nor can food be brought overland as the road from Lhasa to China is unfinished. Chinese rice which reached Tibet by way of India recently has been mainly reserved for the Red troops while a small quantity was distributed to relieve distress among the Tibetans.

To sustain the spirits of the Tibetans, the Chinese have promised that nobody will be permitted to starve to death. The government has announced the arrival soon of another big consignment of Chinese rice by way of India.

In the meantime, the Government is appealing to the Tibetans to work on projects for national development. The daily wage offered for each worker is equivalent to one dollar. In addition, food is available to project workers at government shops at a concession.

Labor For All

The "cultural wing" of the Red army vigorously extols the "dignity of labor" to induce the Tibetans, most of whom are unused to manual labor, to volunteer in sufficient numbers to man these projects.

Large numbers of lamas (Buddhist priests) are said to be working on them. This is not due to the persuasion of the "culture squads," nor to the lamas' love of Communism. These men used to depend on gifts of food for their subsistence, but such gifts are no longer forthcoming. They must therefore work or starve.

Beggars, formerly plentiful in Tibet, have been driven out of business by the food shortage. Those who can work have joined the labor force of the Chinese. But large numbers of the sick and disabled have crept over the border into India and are gathering at Kalimpong.

OPERATION OWL

MUNCIE, Ind. (UP) — To prove the wisdom of its aims, the Muncie public library has borrowed two owls to rid the building of pigeons.

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.

Movie on Ohio Shown To Progressive Grange

The film, "Freedom's Proving Ground," produced by the Standard Oil Co. in observance of Ohio's sesquicentennial, was shown at a meeting of Progressive Grange Tuesday night in the Grange hall.

It was shown by C. M. Gorby. In charge of the program was Mrs. Alpheus Gruber. An announcement was made of Pomono Grange meeting to be held Sept. 5. Refreshments were served by a committee composed of Mr. and Mrs. Vernon Gruber, Mr. and Mrs. A. G. Spring, Miss Jean Bibbee and Seymour Bibbee.

The next meeting, Sept. 1, will be preceded by a potluck fellowship supper at 7:30 p.m. In charge will be Mr. and Mrs. Charles Might and Mr. and Mrs. Cecil Davis.

UHLER'S

Fall Values and Excitement in Every Department—On Every Floor! Come In and See the Smart Fashions for You... For the Children, For Your Home!

We are happy to announce the addition of

maidenform's

Bras

priced from $1.50 up

featured is the 'Etude'-$2

WE ARE proud to add the line of Maidenform Bras to our selections. Etude (illustrated) will mold and hold you in wonderful fashion. The secret is the tic-tac-toe stitching ... to give you a firm young bustline and a beautifully rounded silhouette. In pretty fabrics.

Corsets and Bras 2d Floor

Send Them Off-to-School In Smart Clothes From Uhler's Children's Department

Picture-Pretty Cottons

In Sizes 3 to 6X or 7 to 14

$2.98—$3.98—$5.98

SCHOOL bells will soon be ringing . . . and already the youngsters are being outfitted with new dresses. These are all so pretty and fresh in checks, plaids, stripes, solid colors and combinations . . . in fabrics that will give lots of good service after repeated washings. Many are the famed "Kate Greenaway" frocks which we've featured for many years.

Back-to-School Blouses and Skirts

$1.98 - $2.98 - $3.98

Russia Has Had 2 Cracks at Attention

Ike May Make Statement on H-Bomb

By JAMES MARLOW

WASHINGTON (AP) — Perhaps President Eisenhower — now that the Russians have had two rides with one ticket on the hydrogen bomb — will make a public statement about this country's progress with the same weapon.

Malenkov told the Supreme Soviet Aug. 8 the United States no longer had a monopoly on production of the bomb. Today the Communist newspaper Pravda said Russia had actually tested an H-bomb.

This country never has officially claimed to have produced this bomb although the carefully worded statements given out after tests at Eniwetok indicated the United States had the H-bomb.

But when Malenkov made his claim two members of the House of Representatives—both on the Joint Congressional Atomic Energy Committee—said this country has the H-bomb.

And after Pravda's announcement, Lewis L. Strauss, chairman of the Atomic Energy Commission, in a still carefully worded statement said that on Aug. 12 Russia had produced atomic explosions similar to the reaction this country got at Eniwetok.

For weeks there have been Washington rumors that Eisenhower was considering making a talk to the nation, and the world, about this country's achievements with the H-bomb and its awful destructiveness.

One report floating around the capital was:

That there were two schools of thought among Eisenhower's advisers, one urging him to disclose at least some of America's development with the bomb and its awful nature, and the other urging him to say nothing.

C. D. Jackson, Eisenhower's adviser on psychological warfare and certainly one of those to be consulted in any decision about a public statement of this kind, was asked within the past few days:

Was there any truth in a report that a speech on the bomb was already written and lying on Eisenhower's desk, awaiting his decision to deliver it or junk it?

Jackson said he knew nothing about it. Yesterday on his New York trip Eisenhower had breakfast with Jackson and Strauss. This was hours before the Pravda announcement, but seven days after this government had learned of the Aug. 12 Russian atomic explosion.

Strass, in his statement last night, said this country learned of the atomic explosion by the Communists on Aug. 12 but subsequently—he didn't say precisely when—learned it was of a kind involving "both fission and thermonuclear reactions." Thermonuclear is the scientific term for the hydrogen explosion reaction.

This delay in government announcement about Russian atomic experiments was not unprecedeted. When President Truman in 1949 disclosed an atomic test in Russia he said it had occurred several weeks before.

Malenkov's Aug. 8 statement—that the United States no longer had a monopoly on production of the hydrogen bomb—was carefully worded and, because it was, it set the Western world guessing.

It implied rather than claimed that Russia had mastered production of the bomb.

The question remained: Russia might have the information but was it capable of making the bomb yet?

On Aug. 12, the day of the Russian test, Secretary of State Dulles said:

There was no evidence that Russia had produced the H-bomb. But he spoke several hours, apparently, before this country's sensitive devices began to pick up evidence of the Russian test that morning.

Since Malenkov spoke only four days before his government made its test, he knew the test would soon be made. It was thought at the time he might be bluffing. Now it seems he was understating his claims. Why?

His first guarded statement got a sensational reaction around the world. Just as it began to die down, Pravda made the second claim. Whatever the Russian reason for handling news of the bomb this way, they at least got twice as much attention as they would if nothing had been said until Pravda broke the news today.

And the next time Malenkov makes a guarded claim, even if it's phony, he'll get more attention, and perhaps more belief, than he did this time. Psychologically, the Russians figured this one closely.

Eisenhower will have to decide whether he wants to offset this news from Russia with news about American work on the bomb, plus statements about the future, including national defense and atomic policy.

CAPITAL CHOICE. As you can see by the ribbon, that big smile flashed by Helen Fiske Smith, 19, is for her title "Miss Washington" in the coming "Miss America" beauty pageant in Atlantic City, N. J. She will represent the nation's capital in a field of 53 beauties. She is a cellist.

Bucyrus City Council Bans Vehicle Noise

Special to The Star

BUCYRUS—Ordinances banning excessive noises by trucks and other vehicles and outlawing the use of outside toilets, have been adopted here by city council.

The anti-noise measure outlaws the use of cutouts, bypasses or similar devices and also prohibits any vehicle from producing excessive gas or smoke. It further requires all motor vehicles to be equipped with mufflers in good condition and in constant operation. Penalty is a fine of not more than $50.

The ordinance was prepared after city officials had received numerous complaints from citizens about trucks making loud and unnecessary noises while passing through Bucyrus. Signs, warning of the ordinance, will be placed on main highways entering the city, Mayor Frank P. Sitler said today.

The ban against outhouses provides that dwellings must be connected to city sewers, where such facilities are available, and where there are no city sewers, sanitary facilities, meeting regulations of the board of health, must be installed, including septic tanks.

Enforcement of the measure is left to the board of health. Penalty for violations is a fine of not more than $25 with each succeeding day being considered a separate offense.

The National Geographic Society says the first locomotive to go into scheduled service in America was the Southern Railway's "Best Friend of Charleston."

227 W. Center St. — 34 Years in business

Notes of Interest Found in Old Copy Of The Daily Star

News that interested readers of The Marion Daily Star nearly three-quarters of a century ago is to be found in an issue of the newspaper of Monday evening, Aug. 2, 1880.

The four-page newspaper is the property of Henry S. Kraner of 461 S. State St. and contains an account of the death of his mother Mrs. Callie Kraner, on the preceding evening. She was 36 years old. Her death, which came after an illness of eight days, was caused by "spinal fever." Her husband, Samuel Kraner was ill at that time with typhoid fever.

The "locals" told of Mike Stoll being thrown from his horse and being "hurt about the ankle and toes of his right limb on the left foot." He was the grandfather of Howard R. Stoll of the Stoll Shoe Store.

Adam Forepaugh's Circus and Menagerie was billed for Thursday, Aug. 26, a small item noted, and there was to be a grand excursion to Niagara Falls and Toronto on Tuesday, Aug. 3, via the CCC & IRR. Fare to the Falls and return was $4 and for one dollar more one could see Toronto. Sleeping car accomodations were to be had at $2 for a double berth.

Marion markets listed hay $10 a ton, wheat 85 cents a bushel, corn 35 cents, oats 25 cents, wool 33 to 36 cents a pound, chickens five to 10 cents, butter 10 cents, eggs eight cents a dozen and potatoes 30 cents a bushel. Page one of the four-page edition carried advertising of Estey organs, sewing machines, and the Huber Company's farm engine, hay rake road scraper and corn planter.

Emigrant tickets to any point in Illinois, Iowa, Missouri, Arkansas, Kansas, Texas, Colorado, Wisconsin, Minnesota and Nebraska were to be had from P. E. Dombaugh, agent for the Columbus and Toledo Railway Co. and I. N. Frey advertised the purchase of a new hearse and large stock of undertakers goods.

The two inside sheets were "boiler plate" and carried advertisements from as far away as New York City, St. Paul, Minn., Philadelphia and other metropolitan cities. S. Hume was the editor and the paper was published by W. P. Hume and Brother.

Ashley Couple Notes 68th Year of Marriage

ASHLEY—Mr. and Mrs. John Slaughter of northwest of Ashley celebrated their 68th wedding anniversary at their home, Saturday, Aug. 15. Neither is in good health. There were callers during the day and numerous cards were received, along with beautiful bouquets.

The couple exchanged vows Aug. 15, 1885, at the home in which they have since resided. It is known as the Old Boston Homestead and Mrs. Slaughter was born and reared there.

Eisenhower Registers For November Election

NEW YORK (AP)—President Eisenhower registered yesterday and applied for an absentee ballot so he can vote in the city's mayoralty election in November.

After Eisenhower signed his name to the necessary papers, a reporter inquired: "Mr. President, will you tell us how you're going to vote."

The President replied: "How do you think?"

THURSDAY, AUGUST 20, 1953

Willing and Able

The new electric-power policy being pieced together by the Eisenhower administration looks like this:

The federal government will not move into any more electric-power situations against any private enterprise willing and able to do the job. The "yardstick" introduced by the original New Dealers henceforth will be used to aid the electric-power industry, not to chastise it.

The Eisenhower administration has adopted a policy of "creeping capitalism" in a significant field. The significance is not confined to the producton of electricity by water power and coal.

The ultimate backbone of power in the United States will be nuclear fission harnessed to electric generators. The scientific groundwork for this development is being laid by experiments now in progress.

If the New Deal credo that politicians should control everything had been pushed to its ultimate absurdity, there would have been a federal monopoly of atom-generated power. It would have seemed to grow logically out of the loudly asserted right of politicians to take over more and more power generated by water power and coal.

The Eisenhower administration has called a halt to political encroachment in this vital field. It has gone further and given a green light to private enterprise.

From now on when politicians want to edge into the power business they will have to produce a certificate of necessity. Otherwise, they will have to stick to politics.

Where Are They Creeping?

One political pattern keeps repeating itself in the kaleidoscope of this news.

In France, a government is being undermined by politician-unionists who assert the right to dictate to the state on pain of the state's overthrow.

In England, a government is being challenged by politician-unionists who threaten to become more like Russian Communists if they are forced to become less like British socialists.

In Italy, a government is being blackmailed by politician-unionists who threaten to close the door on political moderation if they are not appeased to their satisfaction.

And in the United States, the labor organizations are readying a campaign of slander and abuse against the national administration because it refuses to abandon its resistance to creeping socialism.

This campaign is beginning. Its theme will be that the Eisenhower administration is "giving away" what belongs to all the people when it takes the government out of activities which should not be charged against the public treasury because private enterprise can perform them at substantial saving to taxpayers.

Creeping socialism in the United States and elsewhere in this troubled world did not just creep. It was pushed and prodded by men who wanted to centralize more and more power in their own ambitious hands—and they are still busy.

Honus for Posterity

It seems a crying shame that Pittsburgh is going to erect a civic statue to a stranger—John Peter Wagner.

Perhaps there will be a guide handy, or a paragraph in a brochure, to tell posterity that this stranger was known to millions of his contemporaries as Honus Wagner, a bowlegged Dutchman who added new dimensions to shortstopping when he played with the Pirates.

He was called Honus because that was an abbreviation of Johannus, which would have been his name had he stayed true Dutch. It was a term of affection.

For all posterity might know about John Peter Wagner, he could have been a Pittsburgh politician instead of a Pittsburgh saint. The saint's name was Honus. . .and an old timer can still hear it and see its bearer scudding through space.

Call in the Behaviorists

A cryptic announcement that Civil Defense Administration is beginning to favor the evacuation of cities in the event of atom-bomb attack, instead of trying to provide shelter inside target areas, makes sense for behaviorists.

These are the people who always have believed the best civil defense plan would be the one which helped people do what they would be inclined to do naturally. In the case of a threat of atomic-bomb attack, this would be to get out of the probable target area.

In the case of an actual attack without sufficient warning to get out of the area, the probable behavior of most people would be to get below ground, out of harm's way. That, too, coincides with what experimentation has proved to be the safest conduct.

If Civil Defense planners would consult behaviorists, they might be saved the futility of trying to persuade people to do what they never would think of doing if left to their own devices. In the event of an atom-bomb attack with warning, that clearly would be to get out of the prime target areas.

Two Views of Prestige

By David Lawrence

Europe Would Benefit From McCarthy of Own

For several months now Europeans have been filling the ears of visiting Americans with the cry that never has American prestige been "lowered so much" as it has been by Sen. McCarthy.

Maybe it's time for some Americans who get off the boat in Europe to tell the reporters there: "We've got news for you — never has European prestige been as low in America as it is today."

The havoc wrought in France by the strikes in which communistic organizations played a large part, and the manner in which the Communist party recently helped to upset the government in Italy, together with the way the British Parliament is pressing for the admission of Red China into the United Nations, notwithstanding American opposition — all this is certainly not increasing European prestige in America.

It all adds up to the fact that Communist influences in European governments are growing and Europe hasn't produced any McCarthys to clean them out.

Norman Thomas is the latest of the tourists to get off the boat in New York and tell the reporters there that American prestige is very low in Europe.

He says it is not only because of McCarthy but because American financial aid to Europe is being cut down unwisely.

The former socialist candidate for the presidency apparently doesn't hesitate to measure the drop in American prestige on a dollar basis. He's right about that yardstick at least.

But when it comes to measuring American prestige in terms of Sen. McCarthy's crusade against the Communists in this country, it is a surprise that the Europeans and their press have been spending so much time and energy denouncing an American senator. One wonders how high the prestige of the United States ever reached in the past if its great achievements in war and peace, especially in the distribution of 40 billion dollars throughout the world since 1945, can be suddenly erased by the zealous activities of a single United States senator who happens to have been re-elected last year by a bigger majority than he ever got before.

Very little is heard in Europe, on the other hand, about the real background for the McCarthy crusade in America — the presence of an espionage ring in the United States government.

It was enough to start several committees of Congress on a hunt for further evidence and it is no exaggeration to say that the job of ferreting out subversives in our government has by no means been completed.

Yet in Europe the Communists evidently have a free hand. They infiltrate the key branches of government and nobody seems to object very much.

In France the Communists control important trade unions and foment strikes. Certain trade unions in Great Britain and in Italy are also controlled by the Communist party.

Where the British could use a McCarthy today is in investigating their government departments.

Why, for example, was Klaus Fuchs, known to be a Communist when he came to England, "cleared" by the British so that, when he came to work on the atom project in the United States, he was immune from suspicion as a spy.

Why also was it possible for two Communists actually to be part of the British Foreign Office for so many months without being caught?

Although Donald MacLean and Guy Burgess were both Communists — and known among their friends to be Communists — they were entrusted with diplomatic jobs.

MacLean was in charge of the American desk in the London Foreign Office for a long time. He examined daily the most confidential and secret cables, documents and notes being transmitted by our Department of State to the British government.

Both men now have escaped behind the Iron Curtain but to this day the full story of how they got into the foreign office and the damage they did has never been told to the British people.

Certainly if ever a McCarthy was needed to prod officials into telling the people how the foreign office itself was duped at a critical time in postwar history, it is in Great Britain.

The antagonism of the British people to Communists in their government is just as deepseated as is that of the American people. But a smokescreen may have been placed over possible investigation of Communists there by the outcry about "McCarthyism" in America.

Maybe that's why the Wisconsin senator is being played up entirely out of all proportion to his real importance — to keep any British McCarthys from investigating what is going on in Great Brtiain.

(New York Herald Tribune)

Skunks Among Pullets

By TRUMAN TWILL

This may turn out to be the only column of its kind which will not try to say something cute about the new Kinsey report.

The old one wasn't regarded as cute here, either.

There is nothing cute about applying the statistical fallacy to anything as easily susceptible to wrong impressions as sex.

If there is one place in the delicately balanced social forces of our times where the perpetrators of the fallacy should not be allowed to romp in mad pursuit of dollars it is in the deeply personal matter of sex.

The statistical fallacy consists of foisting on gullible people the kind of statement that if one person is six feet high and another person is four feet high the average height of the two is five feet.

In careless hands this immediately is twisted into a statement that the average person is five feet high. There is no such thing as an average person in any respect. There are more than two billion people on earth, and none of them is average.

Yet, because the statistical fallacy has been embedded in the thinking of the times there are millions of people being made unhappy because they weigh more or less than the average of some arbitrarily defined group, such as the clients of an insurance company, or citizens who have been measured and weighed for military service.

All this country needs in the fantastic chaos of its existing confusion is for the idea to get around that most women do this, that, or the other thing in relation to sexual behavior and a couple million of the empty-headed pullets that cackle over male crooners will be taking off in another of their insane chases, like the children of Hamelin.

It was bad enough when they dragged the statistical fallacy into the field of sexual behavior among men. But men are less impressionable than women, especially women at the pullet stage of maturity. And men are less curious about such matters, besides being more susceptible to good training and the suggestion of high principles.

It is never cute when fallacies are fobbed off on suckers, not even pseudo-scientific fallacies. There is nothing to make jokes about, unless the idea is to take sex back to the ribald days when it was alternately not mentioned at all or turned over to pranksters for tiresome jokes.

Maybe it's time to bear in mind that in the painfully slow evolution of a better society almost everything now in progress will be discarded eventually as grievous error.

The faltering step or two which mankind may be lucky enough to make in a forward direction during the 20th century won't be helped any by applying the statistical fallacy to sex, where men need no help in making mistakes.

Daily Bible Thought

"I have fought a good fight, I have finished my course, I have kept the faith."—II Tim. 4:7. That is a formula worthy of imitation. It made Paul the greatest man that ever lived second only to his master.

Marion County History Brevities

By EDNA S. DUTTON

Frederick J. Haas, one of the early residents of Richland Township, was born in Germany July 2, 1843. He came to this country when about eight years of age with his parents. The trip was made in a sailing vessel which required 40 days. During the passage his mother died of cholera and was buried at sea. After the family settled in Marion County, young Hass worked for others and often only received his board and $6 a month.

CROSSTOWN By Roland Coe

"Four or five inches lower will be about right."

'Let Me In!'

Brain Washing Given Another Name

By Edward Hunter

The Chinese Communists have managed to conceal their mind-control techniques by the simple trick of switching words about.

The most conspicuous example is the shock and confusion they have caused by having a number of American prisoners of war stay behind, under the claim that they do not want to go home.

Various words have been used to describe this. Some of the released prisoners talk of mental torture. Dispatches, reflecting official views, usually prefer the word indoctrination. Persuasion also is used; the Reds will have "official persuaders" and "explainers" try to convince the Chinese POW's on our side who do not want to return to China, to change their minds.

Actually, none of these words conveys more than a single facet of the process, and therefore gives an incomplete impression. The tactics, as revealed by released Americans, range over a whole field of so-called education, persuasion, publicity, evangelism and psychiatry, all twisted out of their normal shapes, and reinforced with subtle or violent punishments, both threatened and actual.

The Red interrogators themselves refer to "mind reform" and "mind remolding." As revealed by American civilians who were put under such pressures on the Chinese mainland, the Reds also use the word "brain-washing."

This is the word they would like to keep from the outside world, for it came out of the experience and suffering of the Chinese who were themselves victims.

This Red strategy of mental pressures is a new development. Wherever indoctrination or persuasion tactics range over several fields, from publicity to psychiatry and evangelism, the only word that gives the correct impression of such empirical, wide utilization of tactics is brain-washing. The use of any other word is minsinformative.

The advantage the Reds reap out of the use of words such as persuasion and indoctrination is that these indicate nothing new or wrong.

When one man is able to persuade another of his views, this is perfectly legitimate, in free world opinion.

When a missionary persuades someone to adopt a new faith, we say this person was indoctrinated or converted.

So long as the Reds can manage to keep us using these terms, can they continue to put their sinister brain-washing practices into operation behind the Bamboo Curtain, while having people on the outside feeling frustrated and confused.

So long, too, can the Red Propagandists contend that his is only free choice. This is exactly what the rest of the world is being told.

The Communist success is discouraging use of the word brain-washing, with its connotation of unscrupulous use of every sort of mind-control process, is only part of their semantics victories. They have reaped tremendous gains through distortion of words.

Their latest long-range success is the new confusion they have brought about by the upside-down use of released American prisoners of the two words progressive and reactionary.

The former term is now a fighting word, an insult, and the latter a badge of honor. This adds to the mental confusions on which the Communists thrive.

The Communists insist on the use of words according to the meanings they give them. They also insist on adjectives being employed.

For instance, inside China, one cannot find the word "American" in any publication or speech without an adjective in front of it, usually the word imperialist.

The U. N. always is referred to in some such manner as "American-dominated," or with the adjective "puppet." This is obligatory.

The word "liberation" is still another instance. The Reds never refer to the "capture" of a locality; they always "liberate" it.

They are so stubborn about this semantics twist that the word in Asia, among non-Communists and even anti-Communists, has come to mean Red occupation of a place. Refugees who have fled from China at great risk and sacrifice to Communist "liberation" of their cities.

They kidnaped the word—it originally was used in World War II to designate towns freed by Allied forces, either in Europe or Asia.

In no sphere do the Communists exert greater efforts than in this one of language. In the perfection of double talk.

Stalin wrote a treatise on the subject that was reprinted throughout Red China and the Soviet Union about two years ago, and made the subject of obligatory learning classes.

This word learning is another one of the double-talk victims. The word as used in Red China no longer means what it does outside; a different character is employed in writing it, and it means always political learning exclusively, and only from the Communist standpoint. By dropping the adjective in this case, the Reds have succeeded in misleading translators and the outside world.

Learning, in this Red sense, was one of the sinister tactics used against the American and other U. N. captives. In this learning, one had to recite Red dogma over and over until it is remembered as easily as a Mother Goose Rhyme, must be able to explain it with seeming sincerity, and must talk and read nothing else. So far as human pressures can do it, the victims are made to think nothing else.

The word confession is used by the Reds in a similar, twisted sense.

This double-talk technique is officially recognized in Red China by the publication of new dictionaries giving the new, propaganda twists to words. Anyone who reads a Chinese publication nowadays needs the new, Communist dictionary. This, indeed, is their major "secret" weapon.

One Weighty Problem Solved

By MARK DANA

Perhaps an editorial writer should don his scolding shoes before commenting on the way John Fedorowicz of Fresno, Calif., helped his wife lose 110 pounds by taking her on a 2,000-mile walk.

Friend wife, Helen, only five feet tall, weighed 265 pounds on doubled-up bathroom scales. Friend husband, John, a roofer by trade, began raising the roof about this spousely avoirdupois and one day out of and under a clear sky he suggested they "go for a walk."

John walked her from Fresno to the Mexican border over mountains and deserts, then jogged eastward, amazing tourists who offered them rides, until he figured that Helen had been exercised down to size, some 155 pounds. Then they went home no doubt to live happily ever after.

Perhaps a woman named Smith or Johnson wouldn't have obeyed her man so readily, but European traditions of Hausfrau nature survive serenely in the California sunshine. John didn't reveal how many ounces he lost on the hike, and in such activities a husband may wear himself down and lose the whip hand of the family, so to speak.

Apparently the problem is to set a goal in advance—in pounds rather than miles—but chivalry suggests that the wife decide how much of herself she wants to give up. There's a recurring suspicion that most husbands don't really know what they want in a wife—before or after marriage—but women convince them handily during courting days, and most keep their men contented as seam after seam is let out of frocks.

It is in those rare instances when a husband no longer sees perfection across the breakfast table, whatever his own poundage, that wives should avoid invitations to stroll around the block. One wonders whether Rip Van Winkle stayed in the Catskills 20 years in a peeve because Dame Van Winkle got suspcious and refused to saunter with him ostensibly down to the television store or airport.

The Once Over

By H. I. Phillips

Our Own Dr. Kinsey

Not to be outdone by Dr. Kinsey, Elmer Twitchell is coming out with a book on the behavior of the human female. He thinks it will out-Kinsey Dr. Kinsey if he gets half the free publicity the doctor has been getting.

Mr. Twitchell admits his book may not give all the answers about woman. "Any man who thinks he can make a study of her behavior and come up with all the authentic facts has been studying the wrong women or just listening to opinions expressed at male clambakes," he said.

-:-

"What is your overall conclusion about woman?" we asked.

"Woman is here to stay," declared Mr. Twitchell, flatly.

"You believe she has passed from the experimental stage?"

"All my studies indicate that she has reached a stage where she must be accepted, Kinsey or no Kinsey," he replied.

"Do you hold with Dr. Kinsey that women respond more slowly to romantic stimuli than men?" we pressed.

"Yes and no. Because a husband comes home from an easy day at the office, greets his wife with 'It is my lady oh, it is my love.' from Romeo and Juliet, and she replies, 'Drunk again,' it is not necessarily proof she is slow on her responses. It could prove she has put in a tough day in the cellar doing the washing and ironing," said Mr. Twitchell.

"Give us typical examples," we urged.

"Well, I looked into some three thousand cases where, during weekend auto trips, a husband kept humming, 'Kiss Me Again,' and 'They Say That Falling in Love is Wonderful,' and the wife's replies were limited to 'Look out for that car ahead,' 'I'm sure you took the wrong road at that last detour,' and 'The front tire sounds flat.' I am still undecided whether this was of any significance in woman's reactions to the sentimental mood."

"Let's have another example of your research," we urged.

"I found that in a study field of three hundred women fifty per cent responded with, 'Let's watch television,' when a husband came home and began quoting Keats and Shelley," said Mr. Twitchell.

"What about the other fifty percent?" we asked.

"They either really wanted to watch video or thought the guy was memorizing a chewing-gum or soft-drink jingle," said Mr. Twitchell.

"Are you satisfied that from your extensive studies you know all there is to know about woman" we asked.

"Let's be reasonable. As a poet once said, 'A woman is only a woman, but a man who thinks he has all the answers about her doesn't come close to getting a good cigar,'" Mr. Twitchell replied.

"Have you any final word to say on your research" we inquired.

"Yes," declared Mr. Twitchell with emphasis, "KEEP IT FROM MRS. TWITCHELL!"

Mrs. Eleanor Roosevelt, barely back from a world tour long enough to take a deep breath, is heading a drive to "curb present reactionary trends . . . The idea of an expanding economy with ever greater opportunity appears to be in danger," she says . . . (The lady means that here and there a word is being said in favor of balanced budgets, economy, solvency and simple bookkeeping)

(Associated Newspapers)

News of Other Years

TEN YEARS AGO — It was Friday, Aug. 20, 1943.

Miss Jeanette Saddle of Columbus who resided at 205½ S. High St. had joined the staff of the Frederick C. Smith Clinic as technician, succeeding Miss Emma Wehrle of 967 E. Church St., who had accepted a position as laboratory and X-ray technician in McKitrick and Antonio Hospitals at Kenton.

A son was born to Mr. and Mrs. William C. Scott of 305 Linden Pl. at City Hospital.

Mrs. John V. Ruth of 211 Baine Ave. left for Washington, D. C., to visit her husband who was employed there.

Miss Geraldine Furniss, daugher of Mr. and Mrs. Arthur Furniss of Caledonia, and Pfc. Robert Lowry, son of Mr. and Mrs. R. L. Lowry of 522 Davids St., were united in marriage in the Wesley Methodist Church parsonage.

Miss Bertha Elizabeth Tower, 25, daughter of Mr. and Mrs. A. J. Tower of 199 S. Seffner Ave., had enlisted in the women's reserve of the Navy in Detroit and was to go through recruit training at the U. S. Naval Training School in Bronx, N. Y.

-:-

TWENTY YEARS AGO — It was Sunday, Aug. 20, 1933.

Members of United Commercial Travelers Councils in Marion, Mansfield, Bucyrus and Galion, together with their families, gathered at Seccaium Park near Bucyrus for the second annual outing sponsored by the four groups. Approximately 600 persons took part in the program.

Walter M. Milery, 32, former resident of Richland Township, died at his home in Cardington.

Mrs. Leona Sanderson of Davids St. entertained at dinner in honor of the wedding anniversary of her son-in-law and daughter, Mr. and Mrs. Frank Pennington of Plain City.

The Clark's Market baseball team trounced the Edison Pennant Flours, 17-10, in a slugfest at the Marion Steam Shovel Co. athletic field on Uncapher Ave.

The Marion Red Birds finished first in a softball tournament staged at Harding Field. The Harding Presidents defeated the Marion A.C. by a score of 4-3 in the first game. In the second game the Red Birds scored a 9-5 win over Co. D and in the finals, the Reds defeated the Presidents, 4-0.

A son was born to Dr. and Mrs. Frederick G. Smith of 739 E. Center St., and daughters were born to Rev. and Mrs. Howard L. Olewiler of 382 E. Church St. and Mr. and Mrs. Raymond Gay of 229 Pennsylvania Ave.

Social Affairs

ANNOUNCEMENT is being made of the engagement and approaching marriage of Miss Melva Noggle to Arthur Beery. An early fall wedding is planned by the couple. The ceremony will take place in Charleston, S.C. Miss Noggle is the daughter of Mrs. Claudine Noggle of 1069 Uncapher Ave. and Ira Noggle of near Marengo. She is a graduate of Harding High School and is employed as an I.B.M. operator with the Fulfillment Corporation of America. Her fiance, who is the son of Mr. and Mrs. Oscar Berry of near LaRue, is a graduate of the LaRue High School and is stationed with the U.S. Navy in Charletson, S.C.

—:—

A swimming party for members, their husbands and families was held by Beta Chapter, Gradale Sorority, Sunday at Harrison-Smith Park in Upper Sandusky. Games also were played. In charge of the affair were Mrs. Phyllis Lower and Mrs. Delores O'Brien.

—:—

When the Garden Gate Unit of the Marion Garden Club held a breakfast meeting recently at the Shangri-La Restaurant at the Marion municipal airport, a nominating committee was named. Mrs. A. R. Tennis gave a report on civic committee activities, and Mrs. Gilbert Herr told of the Garden Club's project for planting shrubbery at the new YMCA building which the Garden Gate Unit voted to assist. Plans were made for a rummage sale in September. Appointed on the nominating committee were Mrs. Clarence Briggs, Mrs. Frank Barnhill, Mrs. Wallace Smith, Mrs. M. C. Murphy, and Mrs. Tennis. A picnic for members and their families will be held Sept. 13 at the home of Mrs. James Beal south of Marion.

—:—

Mr. and Mrs. Ray D. Reeley of Richwood are announcing the forthcoming marriage of their daughter, Marcella Ann, to Everett Matlack Jr. of Marion, which will take place Sept. 13. The ceremony will be read at 2:30 o'clock in the afternoon in the Methodist Church at Essex, with Rev. Leland Wiley of LaRue reading the service, assisted by Rev. Frederick Haley of Essex. Open church will be observed.

The bride-elect was graduated from the Richwood High School in 1950 and Office Training School in Columbus. She is employed by the Frontier Press Co. in Columbus. Mr. Matlack was graduated from the Richwood High School in 1947 and served two years in the U. S. Army, a year of which was in overseas duty in Germany. He is employed by the Merit Shoe Co.

—:—

An early fall wedding is planned by Miss Jeri Clutter and her fiance, Lewis Long, whose engagement and approaching marriage are being announced by her parents, Mr. and Mrs. Paul Clutter of north of Marion. Mr. Long is the son of Mr. and Mrs. Sperry Long of near Green Camp.

The candlelight ceremony will be read Sept. 12 at 7:30 o'clock in the evening in the Church of Christ at Kirkpatrick. The custom of open church will be observed.

Miss Clutter is employed as a teller at the National City Bank. Mr. Long is engaged in farming.

—:—

Plans were made for a Thanksgiving project when members of the Jai Lai Club gathered at the home of Mrs. Patrick Gilmore at 879½ E. Center St. for their August meeting. Proceeds from the project will be used for Christmas baskets for the needy.

The hostess gift was won by Mrs. Steve Safran and the evening was spent in playing cards. Baby gifts were presented Mrs. Gene Mull. Mrs. Ralph Miley of 120 Barnhart St. was co-hostess.

SET COMBINED SERVICE

Members of St. Joseph's Evangelical and Reformed Church at Waldo and of St. John's Church in Richland Township will join for a worship service in Marion at Lincoln Park Sunday morning, and for a fellowship dinner. Time of the servace will be 11 o'clock and the pastor the Rev. William F. Kissel, will be in charge. A committee will provide a program for the afternoon.

Cleveland Jury Indicts Former Probate Judge

CLEVELAND (AP) — Former Probate Judge Nelson J. Brewer is expected to plead innocent to a charge of embezzling $2,202 from the estate of a mentally incompetent man he served as guardian. His attorney indicated he would make that plea.

The grand jury indicted the 69-year-old ex-jurist yesterday. He resigned last July 21 during a bar association investigation after 20 years on the probate bench here.

Brewer served as guardian to the late Samuel Mond from 1925 to 1940. He is charged with embezzling the money between 1928 and 1932 in connection with rent collected from a Trumbull County farm on which Mond held a mortgage.

The former judge has said he will make restitution in the Mond case and in six other cases involving shortages of $6,388.

A conviction of embezzlement caries a maximum penalty of 10 years in prison.

1953 Wyandot Fair Program Will Open At Upper Sept. 15

Special to The Star

UPPER SANDUSKY—Program for the Wyandot County Fair, Sept. 15, 16, 17, 18 and 19, has been announced by the fair board.

The official premium list booklets containing information about the Wyandot County Agricultural Society, information about the five-day program and a list of premiums offered in all departments, have been distributed.

Races will be held Wednesday, Thursday and Friday afternoons with a total of $5,700 being offered in purses this year, in addition to trophies.

A talent show will be held on Tuesday night with the annual Junior Fair program scheduled for Wednesday night. On Thursday Storey's Star Revue will be presented and Johnnie Rivers Western Jamboree is set for Friday. An auto thrill show will be presented Saturday night.

Request for Turnpike Survey Funds Tabled

COLUMBUS, Ohio (AP)—A request by Samuel O. Linzell, state highway director, for $650,000 to survey a Cincinnati - Conneaut turnpike route was tabled yesterday by the state controlling board.

Linzell, a member of the Ohio Turnpike Commission by virtue of his state position, said the money, if advanced from the highway improvement fund, would be repaid from sale of bonds to finance turnpike construction.

The board gave no reason for delaying action on the request. One member said he wanted to see how the Northern Ohio Turnpike fared before putting up additional funds.

Harding Graduates Win Scholarships at Ohio U.

Two Harding High School graduates have accepted freshmen scholarships to Ohio University, Athens, for the fall term beginning in September.

They are Cynthia Ward Myers, daughter of Mr. and Mrs. Durward D. Myers, Delaware Ave., and Georgeanne Zuck, daughter of Mr. and Mrs. John J. Zuck, 618 Windsor St.

The announcement concerning the scholarships was made by Dr. George W. Starcher, scholarships committee chairman and dean of the college of arts and sciences at Ohio University.

7:45 nightly, Gospel tent, Garfield Park, Marion, Ohio.—Ad.

Resignation of Mayor Demanded by Council

CLEVELAND (AP)—Parma Heights councilmen last night unanimously demanded the resignation of the suburb's mayor, Frank J. Breen.

Building contractor Myron Chicota has obtained a warrant charging the mayor of cheating him of $2,800 by promising to use influence to get him a liquor permit.

The mayor, pleading innocent, said he never promised Chicota he would get the permit. He said he simply borrowed the money from the contractor.

Councilmen, in their request for Breen's resignation, said the mayor failed to cooperate with administrative and clerical personnel, tried to dismiss some of the community's technical advisers and and failed to exercise proper discretion in the conduct of his personal affairs.

Radnor School Board Names District Head

Special to The Star

RADNOR — Oliver H. Gibson, former superintendent of the Powell School has been employed as superintendent of the Radnor Union School District.

The appointment was made Tuesday night after the Liberty Union Board of Education agreed to release him from his contract with the new Olentangy High School where he was to have taught mathematics.

Gibson fills a vacancy made by the resignation of George E. Steele. He received a B. A. degree from Ohio State University and completed graduate work in school administration and supervision there. He had served as Powell School superintendent for 17 years.

WALDO SERVICE SET

St. Paul's Lutheran congregation of Waldo will hold regular services at Memorial Park near Fulton Sunday at 10:30 a.m., followed by a picnic dinner. All members of the church and friends are invited to attend, the pastor, Rev. S. C. Long, stated.

Rotarians Hear Talk by Labor Relations Man

Paul Broderick, a labor relations consultant from Cleveland, spoke to members of the Rotary Club Tuesday at Hotel Harding. Subject of his address was "Trends In Present Day Labor Relations."

Broderick reviewed from the Wagner act in 1935 to the Taft-Hartley act in 1947 and told the group he felt the solution to narrowing the gap between labor and management today would be a strong conciliation service.

The speaker was introduced by John W. Dean Jr., program chairman for the month. Dr. James Greetham, club president, presided. Guests, both Rotarians, were George F. Leatherman of Findlay and W. F. Norton of Mansfield.

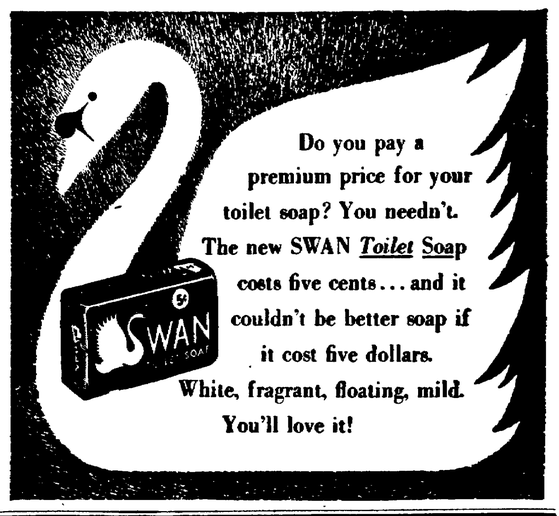
Next Tuesday's luncheon will be at the new Harding High School. The Rotary Club will be joined by the 20-30 Club at the luncheon and the two groups will tour the building.

Martel Grange Holds Miscellaneous Shower

A miscellaneous shower was given for Mr. and Mrs. Clarence Allen at a meeting of Martel Grange Tuesday night. Mrs. Allen is the former Wilma Leathem and her husband is with the Air Force, stationed in England.

The lecture hour included vocal numbers by Mrs. Carl Bailey and Misses Marlene Weirick and Shirley Pangborn, a reading by Mrs. J. K. Neff and a contest directed by Mrs. Pauline Cotsmire.

During the business meeting the charter was draped in honor of William Neff. Refreshments were served by Mr. and Mrs. Ralph Noggle and Mrs. Kenneth Pangborn. The Grange will meet again Aug. 25.



Do you pay a premium price for your toilet soap? You needn't. The new SWAN Toilet Soap costs five cents... and it couldn't be better soap if it cost five dollars. White, fragrant, floating, mild. You'll love it!

Couple Whose Niece Died of Beatings Held

Charges Expected To Be Filed Today in Death of Girl of Nine

CLEVELAND (AP) — Police said criminal charges would be filed today against a couple whose six-year-old niece died after what was described as a "series" of beatings.

Police chief Lester Roeper of suburban Parma planned to confer with city solicitor Richard DeNobel before determining the exact charge.

The child, Celia Barger, was dead when her aunt and uncle, Mr. and Mrs. Matthew Barger, brought her to a hospital early yesterday.

Dr. Lester Adelson, assistant coroner, said he found extensive bruises all over the child and that she undoubtedly died from internal injuries suffered in a "series" of beatings.

Chief Roeper said Mrs. Barger, 31, admitted spanking the girl and her sister, Helen, 8. The two children had lived with the Bargers for seven months.

The children's father, Sgt. John Barger, arrived here last night from Stewart Air Force Base at Smyrna, Tenn. He told police he divorced the girls' mother several months ago in Tennessee, and had been given custody of the children. He said he sent $200 monthly allotment checks for the care of his daughters.

The aunt was quoted by the chief as saying that when the children did not go to sleep Tuesday night, she and her husband took them to a playground at 11 p. m. and forced them to run for nearly an hour. This was "to tire them out," Mrs. Barger said.

Barger, also 31, is a bricklayer.

UNCLE, AUNT HELD IN DEATH, BEATING OF GIRLS. A Parma, O., couple, Mr. and Mrs. Matthew Barger, are being held by police in connection with the death of their six-year-old niece, Celia, (left) and the reported electric-iron branding of Celia's sister, Helen, 8, shown at right with detective Virgil Costley, who is examining the burns. A preliminary coroner's report showed that Celia died from hemorrhages of head, chest and abdomen. The couple admitted spanking Celia regularly for disciplinary reasons, but said she fell from a swing.

Two Girls, on Way To Visit Caledonia, Reported Missing

Two teen-age girls on their way to Caledonia from Point Pleasant, W. Va., were reported missing today by Robert Steele of near Caledonia.

Marion County Sheriff Glenn Obenour said that Minnie Lou Steele, 16, and Betty Bays, 17, left Point Pleasant on Aug. 16 on their way to Caledonia and have not been heard from since, according to Steele.

He described Minnie Lou as 5 feet 4 inches tall, weighing 115 pounds, with sandy-colored hair and blue eyes. Betty is 5 feet 8 inches tall, weighs between 125 and 130 pounds and also has sandy-colored hair and blue eyes. Both have a southern brogue, Steele told Sheriff Obenour.

Educators

(Continued from Page 1)

vision of school finance; Robert Reese, supervisor of trade and industrial education; Ralph A. Howard, director of the state board of vocational education, and Miss Marguerite Loos, supervisor of the state vocational distributive education.

The nine colleges which will send officials are Ashland, Capital, Kent State, Muskingham, Ohio Wesleyan, Ohio State, Otterbein, Wittenberg, and Wooster.

This will be a prelude to the ceremonies which begin at the school next week when open house will be held from Monday through Thursday. The public is invited to tour the school on those days from 2 to 4 p.m. and from 7 to 9 p.m.

The school will be formally dedicated Friday night in a ceremony which has been designed to last from 8 to 9 p.m. Another open house session will follow the dedication. Dr. James Lewis Morril, president of the University of Minnesota and a Marion native, will make the main speech at the dedication.

Weather Report

Sunny, high 76-80 today. Clear and cool again tonight; low generally in 50s, but a few temperatures in 40s. Friday sunny and cool.

H-Bomb

(Continued from Page 1)

from the fusion of hydrogen atoms to produce helium.

Scientists have said that the only way to produce the terrific heat required to start this fusion process would be by the detonation of a conventional atomic bomb.

That might account for Strauss' reference to "both fission and thermonuclear reactions."

"It will be recalled," Strauss continued, "that more than three years ago the United States decided to accelerate work on all forms of atomic weapons. Both the 1951 and 1952 Eniwetok test series included tests involving similar reaction."

Implies H-Bomb Work

While there was no official elaboration, this seemed to imply a claim that the United States may have reached in the spring of 1951 a stage in hydrogen bomb development near that at which the Soviets now stand.

The statement also, without saying in so many words that this country had exploded a hydrogen bomb, went further than the AEC did immediately after the 1951 and 1952 test series at the Eniwetok Proving Ground in the Pacific.

On May 25, 1951, the AEC announced successful conclusion of "experiments contributing to the thermonuclear weapons research." At the time, the general interpretation was that perhaps a small quantity of hydrogen had been fused to produce an explosion.

Employing almost identical language after last autumn's series, the commission announced completion of tests which "included experiments contributing to thermonuclear weapons research."

Letter Told of Explosion

Shortly before that announcement, however, letters began arriving in this country from membes of the task force conducting the Eniwetok tests. A number of them spoke of an unprecedented explosion which made an entire island disappear.

The AEC declined to elaborate in any way on Strauss' statement. Asked whether it meant that Russia had indeed exploded a hydrogen bomb, a commission spokesman said the statement would have to speak for itself.

President Eisenhower, returning to his Denver vacation headquarters about the time the Pravda announcement was made, had no comment.

Rep. W. Sterling Cole (R-NY), chairman of the Senate-House Atomic Energy Committee, said at his home in Bath, N. Y., that "we must assume it is true because it would be folly to assume that it is not within their power to develop the H-bomb."

The process by which this country can detect an atomic explosion abroad has never been officially explained. It is believed to be based primarily on samplings of the upper air for the radioactivity.

When Is Abandoned Car Not Abandoned?

HARTFORD, Conn. (UP) — Frank Sharkiewicz left his automobile in Mrs. Mary Lepone's yard several years ago, agreeing to pay $1 a month rent.

When Sharkiewic stopped paying rent she ordered him to remove the car. He refused.

The fire marshal also ordered Sharkiewicz to take his car out of the yard. But he still refused.

Finally, Mrs. Lepone sold the car for junk, and received $1.

Sharkiewicz sued for $20, but lost the case because the court said he had abandoned it.

However, the state supreme court reversed the decision, saying that there was no indication Sharkiewicz had intended to relinquish the car.

The high tribunal ordered Mrs. Lepone to pay the $20.

U.S. Officials Hope for More Stable Regime

WASHINGTON (AP)—American officials watched hopefully today for evidence that a new regime in Iran, though born of violence, would quickly be able to stabilize the country and secure it against any Communist bid for power.

The task falls to 56-year-old Fazollah Zahedi, a major general and friend of Shah Mohammed Reza Pahlevi. He is regarded here as both anti-British and anti-Soviet, but also as a hard-headed realist who will seek practical solutions for his country's difficult problems.

Oil Foremost Problem

Foremost among those problems is the long and bitter dispute with Britain over nationalization of Iran's billion-dollar oil industry. The deposed Premier, Mohammed Mossadegh, repeatedly failed to find a way out of the oil crisis; there is hope here that Zahedy may eventually take a more "realistic" approach than, in the American view, Mossadegh was willing to try.

At the State Department it was evident that officials were maintaining an attitude of watchful waiting toward the outcome of the revolution itself. None knew precisely what remnants of popular support the ousted Mossadegh might have or what new explosive elements could conceivably enter into the situation.

Removes Danger Element

However, it was felt that Mossadegh's ouster—if it sticks—had removed one element of danger to U. S. interests in the Middle East. The aging Premier had recently given the Communist Tudeh party a freer rein, in apparent belief that this served his own political ends in trying to consolidate his power.

American officials believe he was taking a grave risk in permitting the Reds to build up power at a time of great unrest. How much solid strength they still may have remains to be seen.

Zahedi is expected to follow a strongly nationalistic line. At the same time, he is said to be a strong friend and supporter of the Shah. And the Shah has generaly been counted here to be reasonable in his attitude toward the West.

Officials cautioned privately against expecting any overnight miracles in the oil dispute. It has gone on too long and feelings in Iran are too bitter against the British to permit that, even if Zahedi were so inclined. He is expected instead to turn his attention initially to internal reforms designed to improve the living conditions of the Iranian people.

Man Suffers Possible Skull Fracture in Fall

John H. Fridley, near Marion, suffered a concussion and possible skull fracture Wednesday when he fell from a ladder while working at the Eaton Mfg. Co. plant. He has been employed there as an electrician with the Wente Construction Co. of Hamilton.

According to his family, Mr. Fridley struck a dolly when he fell. The accident occurred shortly after noon. He was admitted to City Hospital and his condition today is reported to be "fair."

MAN REPORTS THEFT

Theft of binoculars worth some $60 was reported to Marion County Sheriff Glenn Obenour today by Milton Ruth of near Marion. Ruth said the binoculars were stolen from atop a bookcase in his home some time between last Friday and yesterday. He said they are a Japanese make. Ruth lives on County Road 45 just off state route 739.

Iran

(Continued from Page 1)

Iranian Oil Co. Some London newspapers expressed fear, however, that Mossadegh's upset would bring new pressure on Iran from her big neighbor to the north, the Soviet Union.

American officials in Washington were hopeful the new government would be able to stabilize the country and secure it against any Communist bid for power. State Department officials were reported maintaining an attitude of watchful waiting.

Shah To Return

The 34-year-old Shah cabled a call from Rome for the Iranian people to obey the Zahedi government and announced he would return promptly. He was reported trying to charter a plane to Baghdad, capital of Iraq, so he could fly to Tehran in the same personal plane in which he escaped from Mossadegh Sunday.

He and his 20-year-old wife, Empress Soraya, had fled after Mossadegh's forces in the Army thwarted an attempt by the palace guard to enforce a royal decree installing Zahedi.

The Shah's cable called on "all members of the armed forces and all civilian officials and all people of Iran to obey the orders of the Prime Minister, His Excellency Fazollah Zahedi, constitutionally designated by me to lead the legitimate national government of Iran."

Zahedi moved quickly to spike the guns of the outlawed Communist Tudeh party, often Mossadegh's backers. He broadcast promises of an eight-point program of social reforms for Iran's poverty-stricken 15 million peasants. It included a raised standard of living, free health services, mechanization of agriculture, road construction and promotion of cooperative societies.

U.N.

(Continued from Page 1)

need for any further "watering-down" in the conference lineup proposed by three resolutions put forward by various groupings of the 16 Allies under the U.N. banner.

These would invite the 16 U.N. nations on the world organization's side and South Korea, Russia, India and—by implication—Communist China and North Korea. Lodge has said he would not support the proposal to admit India and wants Russia only if she sits on the Communist side.

Vishinsky has proposed a "round-table" conference of the United States, Britain, France and South Korea, for the U.N. Command; North Korea and Communist China for the Reds; and, as "neutrals," the Soviet Union, Poland, India, Sweden and Burma.

Vishinsky' speech yesterday, short and comparatively calm for the usually vitriolic Russian, still did not explain his resolution's provision that conference decisions must get the "consent of the parties which have signed the armistice agreement." The document actually was signed only by Gen. Mark Clark, for the U. N. Command; Gen. Pen Teh-huai, commander of the Chinese "People's Volunteers," and North Korean Gen. Nam Il.

The Russian proposal, Lodge retorted, would give South Korea only a voteless second class ticket to the conference while handing the Chinese Reds a first class passage with a vote.

MINISTER RETURNS

Rev. E. T. Henzel, pastor of the Green Camp and Prospect Evangelical and Reformed Churches, will be returned from vacation and will fill the pulpits of his churches Sunday for the morning worship services.

Kept Secret for Fear of Reprisal

Returned GI Surprised To Find He Won Medal

FREEDOM VILLAGE, Korea (AP)—A shy young Japanese-American who all alone held back attacking Reds while his men withdrew returned from a Communist prison today to learn with astonishment that he had won the Medal of Honor.

Sgt. Hiroshi H. Miyamura, 27, of Gallup, N. M., looked bewildered when Brig. Gen. Ralph Osborne told him he had won America's highest award for heroism. Osborne said news of the sergeant's award was kept secret because he was a prisoner and "the Communists might have made it rough for him" if they had known.

No Official Records

There were no official records here to show when Miyamura won the medal, but after much coaxing he shyly acknowledged that it probably was in the battle just before his capture April 25, 1951.

He commanded a machine gun squad of 13 men from the 3rd Division when thousands of Chinese attacked along the Imjin River.

When the Reds overran part of his position, Miyamura said, "I told my men to pull back a little. I stayed and fired until they got there, then I went back too."

"There were just five of us left. In our new positions we fired the guns and threw grenades until we ran out of ammo and grenades. Then I told the men to withdraw. I let them go and I was covering them with an M1 rifle.

Wounded In Leg

"After they took off I went myself. I ran into some Chinese and they threw some grenades and wounded me in the leg. I kept going but got hung up on our own wire."

That was when the Chinese captured him.

Of his award, Miyamura said: "It surprised me. One of the men must have got out to tell about it."

The Japanese-American said that as his Communist captors marched him to the rear he saw 40 to 50 Chinese bodies in front of the position his squad had defended.

Soviet

(Continued from Page 1)

is not, and was not, any foundation for alarm," the communique continued.

"In accordance with the unchanging policy of the Soviet Union, directed toward the strengthening of peace and security of peoples, the Soviet government repeatedly offered to the governments of other countries the carrying out of a considerable reduction of armaments and the forbidding of the use of atomic and other kinds of weapons of mass destruction, establishing within the framework of the United Nations organization a strict international control of this prohibition.

Stands on This Position

"The Soviet government stands on this position at the present time."

Russia announced her first success in the atomic field five years and nine months ago when Soviet Foreign Minister V. M. Molotov told the United Nations that the West's monopoly of the atom bomb "had long since ceased to exist."

The Russian disarmament plan to which the Soviets referred today proposes a one-third reduction in conventional arms by the Big Five — the United States, Britain, France, Russia and China — as well as an outright and immediate ban on atomic and bacteriological weapons.

The West has repeatedly rejected the Russian plan on the grounds that it would permit international inspectors to check on Soviet atomic production only when and where the Kremlin decreed.

Turn Down Our Plan

The Soviets in turn have consistently turned down a Western plan for arms reduction — approved by an overwhelming majority of the United Nations — calling for step-by-step inspection and counting of arms throughout the world and iron-clad controls over atomic energy production with the aim of eventual prohibition of mass destruction weapons.

In Denver, President Eisenhower's press secretary, James C. Hagerty, said the chief executive would have no comment on the Soviet announcement.

Hagerty told newsmen the President had been informed of the Atomic Energy Commission's findings but added, "I can't tell you when."

Following Malenkov's Aug. 8 announcement, Western atomic experts generally conceded that the Russians probably knew the principles of construction of a hydrogen bomb but doubted that the Soviets were nearly so far advanced in the field as the United States.

Firemen, Inhalator Car Answer Calls

Two small-loss fires and one inhalator call routed Marion firemen out twice during the last 24 hours.

A short-circuit in the wiring of a truck owned by B and G Transportation Co. of Massillon caused damage estimated at $25 at 9:12 a.m. this morning. The blaze broke out as the driver, Kenneth Woods of Massillon drove along in front of 1083 W. Center St. Firemen from the W. Center St. station answered the call.

There was small loss reported in a blaze at the rear of the Palace Recreation bowling alley at 295½ W. Center St. at 2:27 p.m. yesterday. Firemen said the fire broke out while employes were turning down bowling pins on a wood lathe. Sparks from the electric motor set dust and lacquer on top of the lathe on fire. Central Station firemen answered the alarm.

Inhalator squadmen were called to the residence of Marley Long, 53, at Arlington Ave. and Bryant St. at 8:45 this morning when he suffered a severe asthma attack. No treatment was attempted by the inhalator crew. Long was taken to City Hospital for treatment.

Ike

(Continued from Page 1)

yesterday morning, the President's first business was an unscheduled breakfast conference with Lewis L. Strauss, chairman of the Atomic Energy Commission, and C. D. Jackson, White House adviser on psychological warfare.

Amplify Information

Those two officials apparently amplified information which almost certainly had been furnished to Eisenhower here Aug. 12, the day the Soviet tests took place.

The Atomic Energy Commission statement by Strauss said this government obtained information about the tests the day they occurred.

In New York, Eisenhower took part in ceremonies dedicating the 32 million dollar federally aided Simon Baruch housing project, a memorial to the father of Bernard M. Baruch, a long-time adviser to presidents.

In his informal speech, the President said that in America:

"We expect to see living, happy families, families who, because of their standards of living, are our nation's best weapon against communism—more eloquent defense against that insidious doctrine than the most eloquent tongue of any lawyer, or preacher, or teacher—a more sure defense than any battleship or any plane, or any gun, or any bomb of whatever kind."

Other Activities

In Manhattan, Eisenhower also sat in at the first meeting of newly appointed members of a government committee created to help prevent hiring and firing discrimination in plants with federal contracts; registered for the New York City elections to be held this fall; and held a round of conferences.

In traveling through the city Eisenhower was greeted by enthusiastic crowds reminiscent of last fall's presidential campaign. Chief Police Inspector Conrad Rothengast estimated a million persons were along the four-mile route from the Waldorf-Astoria Hotel to the Baruch houses on the lower East Side. Rothengast figured an additional 250,000 saw Eisenhower elsewhere in the city.

The President arranged to confer today with a delegation from the Agriculture Department and from eight drought-stricken states — Texas, Oklahoma, Colorado, Kansas, New Mexico, Nevada, Missouri and Arkansas.

Prisoners

(Continued from Page 1)

they must return all prisoners after early repatriates said some were being held back and jailed on phony charges.

Meanwhile, more Americans freed in the early days of the exchange streamed toward home.

The hospital ship Haven, with 104 disabled U. S. repatriates aboard, sailed from Inchon in South Korea for Japan. There it will load more Korean War sick and injured and continue to the United States, where it is due about Sept. 14.

The transport Marine Adder wil leave Inchon Saturday with 400 able-bodied U. S. repatriates. The nonstop trip to the United States will take about two weeks.

And the transport Gen. Nelson M. Walker is due in San Francisco Sunday morning with the first shipload of 328 former prisoners on their way home.

Other former POWs—seriously ill—have been flown back to the United States.

IN THE SERVICE

Marine Sgt. Joseph L. Lawrence, son of Mr. and Mrs. Lorin L. Lawrence of near Marion, is a member of the 2nd Bn., Sixth Marines, currently serving as the Fleet Marine Force for the U. S. Sixth Fleet in the Mediterranean. He and three other men of the battalion spent three days touring Rome during the battalion's stop in Naples.

County Budget Of $630,423 Wins Approval

It's $78,325 Higher Than Figure Adopted By Officials Last Year

Marion County commissioners this morning approved budget requests calling for expenditures of $630,423 for 1954—an increase of $78,325 over the budget approved for this year. Budget requests approved by commissioners last year for 1953 totaled $552,098.

Budget figures show that the county will be starting 1954 with a deficit of $43,166, while last year it was estimated that 1953 would begin with a balance of $6,137.

Making allowance for the $43,166 deficit, receipts for 1954 are estimated to amount to $472,033, which means that a deficit of $158,389 will result at the end of 1954—unless receipts are increased by passage of one or more special levies asked by the commissioners.

Most budget increase requests this year were for salary increases for county employes.

Also appearing in the approved budget is an item of $35,000 earmarked for the acquisition and installation of an elevator in the courthouse. Commissioners were ordered by Common Pleas Court to install the elevator following a hearing in court in May.

A half-mill levy for the purpose of providing necessary funds for the installation of the elevator will appear on the November ballots, but if the levy is turned down by the voters, commissioners still must provide for its installation.

Another item provided for in the 1954 budget is money for the tuberculosis testing of cows required in the state every three years. This amount was estimated at $7,500.

District News

Green Camp

A tour of the new elementary school building was a highlight of the Methodist Men's meeting Monday. During the business meeting, in charge of Harold Hedges, Rev. J. W. Spears, Dwight Hedges and Clyde Powelson were named a program and refreshment committee for the September meeting. A watermelon and cantaloupe feed followed.

—:—

E. C. Baum of Elyria, secretary of District 13 Lions International, spoke to a group at the township hall Monday and explained in detail the steps necessary to inaugurate a club here. Robert Scott of Marion, district governor, also spoke on the formation of a club. With the formation of a Lions Club the Green Camp Community Club will be abandoned, according to officers of the latter group.

Membership cards were distributed and another meeting is scheduled for Aug. 24 in the township hall.

McCarthy

(Continued from Page 1)

country or helped her husband to do so.

McCarthy told newsmen there has been an improvement in the printing plant's security program under the Eisenhower administration. But he said it still needs "very drastic" tightening up.

Officials 'Incompetent'

McCarthy had this to say about two GPO loyalty officials who testified yesterday: They're nice fellows and mean well, but they are "infinitely incompetent as far as passing judgment on loyalty and security matters is concerned."

The officials were S. Preston Hipsley, GPO personnel director, and E. C. Mellor, secretary of a loyalty board which let Rothschild stay on his job despite FBI reports linking him with Communist activities.

Hipsley said so far as he personally was concerned any GPO worker known to be a Communist would get the gate "so fast it would make his head swim."

Stevenson Calls Trip 'Sobering Experience'

NEW YORK (AP)—Adlai Stevenson returned from a six-month world tour today and said only the United States can hold the free people of the world together.

Calling his trip a "sobering experience," the defeated Democratic candidate said in a statement recorded by television newsreel cameras:

"There is one thing I can report with certainty — on the lips of everyone in all the vast regions of this tremendous earth, there is a prayer for peace.

"I hope and trust in the months before us we will find the means, the will and, if you please, the determination to hold this grand alliance of the free people of the world together. No one else but the United States can do it."

FELT SLIGHTED

KNOXVILLE, Tenn. (UP)—The Knoxville Association of Credit Men recently changed its name to the Knoxville Credit Association. An officer said "the women members demanded it."

Giant Bomber Explodes; 12 Aboard Jump

PICACHO, Ariz. (AP)—A giant B-50 bomber was shattered by a tremendous explosion over the Arizona desert early today and plunged to the ground in flames.

The 12-man crew of the four-engine ship parachuted into the darkness and came down in the rocky, cactus and mesquite-covered wasteland near towering Picacho Peak.

They were apparently badly mauled by the impact.

The Pinal County sheriff's office at Florence, some 25 miles to the north, reported that many were severely injured and one had died at the scene.

Nine of the crew members were found quickly, including the pilot, Capt. John D. Winters, of Lake Park, Calif. He was not hurt.

Search for the other three airmen is under way.

Yingling and Ronald Coleman, all of Galion; Mrs. Clarence Dill of near Galion. Births: a son, Tuesday, to Mr. and Mrs. John Miller of near Galion.

Old Military Post Is Returned to Service

FT. NIAGARA, N. Y. (UP)—The historic old military post soon will be back in business as part of the Niagara Frontier defense system.

After buildings used as part of a state housing project are converted to military use, the fort will become base headquarters for anti-aircraft troops scattered throughout the frontier.

The post was ordered reactivated April 16 by the Department of Defense after being returned to state control in 1945. The Second Anti-Aircraft Artillery Group has been billeted in tents at the base awaiting rehabilitation of the buildings.

In addition to AAA headquarters, the fort will become a base supply depot for the group's scattered batteries. Before the fort's reactivation, the AA troops had to use the nearest Army installation—Camp Drum—as their supply depot. As a Class I military post, it becomes a self-contained facility.

These Days

By George Sokolsky

It would seem to me that Dr. Kinsey has set out to make sex unpopular. The romantic poets thought of a beautiful woman and wrote their poems about an ennobling personality. The moralists spoke in terms of righteous living within the family and regarded the biologic process of procreation as a means toward increasing the race.

SOKOLSKY

Dr. Kinsey, who is supported by Indiana University, Rockefeller Foundation and the National Research Council, concerns himself apparently with the sex process as a thing in itself, as an animal device employed by humans.

-:-

I READ his book on the male only because in my profession I need to know why 250,000 buy a book. How many read more in that book than the piquant details of unusual processes, I do not know. It told me nothing that I had not learned as a youth on the sidewalks of New York.

In those days, parents blushed at the thought that their children will be even as they were, so what we needed to know we learned from other boys and sometimes from "bad girls."

The point is that we had no doubts in our minds that they were bad girls and we rejected their attitude.

If a boy found that his sister was a bad girl, he would get his gang together and there would be a fight with the bum who made her bad.

We had heard of homosexuals but not by any such fancy name. Generally, we thrashed them for the good of their souls.

-:-

WE NEVER heard of sex crimes until Harry Thaw killed Stanford White and then we got an earful. But that was for rich people. In our crowd, such goings on were unknown and I would wager that they did not happen because the walls were of paper and the eyes and ears of childhood enormous.

Dr. Kinsey's book on the male struck me as an unnecessary accumulation of useless information to satisfy the curiosity of the morbid.

I read a piece in the newspaper by some lawyer or other who jumped Kinsey's gun by telling all and sundry that if the law caught up with us for our sexual practices, most of us would go to jail.

He said something about our evasions of the law on sex being worse than bootlegging. So he wants us to get excited about that.

-:-

ON MY FARM, sex is a normal condition among robins, woodchucks, rabbits, deer and humans.

The subject is so normal that it is no more discussed then the operations of the other 3,000, more or less, parts of the human body.

The most interesting gossip among my neighbors is when a girl is unfortunate before marriage. If the boy fails to act up like a man, he is liable to hear from the girl's father or brother.

Sometimes the state police intervene and the worst thing that can happen is when a "state woman," as they call her, shows up on the scene. That, for some unaccountable reason, brings matters to a head.

Small boys know that a cow is serviced and that pigs produce litters. They take it in their stride, as they do when chickens or pigeons lay eggs, the biologic processes of which they understand.

-:-

THEY DO NOT need to read Kinsey's book to tell them what makes all that lives continue. They even know why wasps and beetles and snakes and frogs go on living.

I am debating whether I shall read Kinsey's book on the female. My favorite chapter in the Bible is Ruth who seems to me to be a very charming girl.

When I was very young, I thought I would write an opera, words and music, about Ruth. Alas! I went into the drabness of politics instead.

I wonder what Kinsey's book would do to Ruth.

Also the personality of Elizabeth Barrett Browning appeals to me.

Then I can never forget Maude Adams in "Peter Pan." I used to deliver flowers back in those days as a side job and I actually saw Miss Adams off the stage!

Tell me, shall I think of her as a counted bug in Kinsey's statistics?

Heaven forbid that anyone should even think of his wife as merely a partner in sex. She is the mother of his children, which is more important.

(King Features Syndicate)

PATTI THROOP, 19, of Portland, will represent Oregon at the Miss America beauty and talent pageant in Atlantic City, N. J., next month. She weighs 119 pounds, has black hair and brown eyes.

DANCE TEACHERS RETURN

Teachers at the Hempleman Dance Studio on Girard Ave. have returned from the National Association of Dancers and Associated Artists convention at Chicago, Ill., and enrollment for the third fall season will get under way Aug. 29. The group includes Misses Iris Phelan and Janet Wolfe, tap instructors, and Norma McDonald, ballet and toe dance instructor, and Mel Carson, in charge of baton twirling and ballroom dancing. The studio will be open on Thursday through Saturday afternoons this season.

Williamsport Hall Being Constructed By Grange Group

Special to The Star

MT. GILEAD — Williamsport Grange members have started work on their own Grange Hall.

The new hall will be 40 by 70 feet and will be located on the Bloominggrove Road, just north of Williamsport. Present quarters in Williamsport do not provide all the necessary facilities and parking is limited.

A large basement in the new building will house the kitchen, rest rooms and a dining room while the upstairs will have a stage and an assembly hall.

Members of the Grange have been raising funds for many years for the new building. Recently they issued notes which will be repaid with interest.

More Gamma Globulin On Hand Than Expected

NEW YORK (AP) — Almost one-third more gamma globulin than was anticipated for this year has become available for inoculations against polio.

The National Foundation for Infantile Paralysis announced yesterday an additional 2,250,000 cubic centimeters of the blood product—enough for 320,000 average doses—had become available. It will be used entirely where polio has reached "critical incidence."

Stein-Riter Marriage Solemnized at Galion

GALION—Gladioli and asters in mixed colors were used in with greenery and lighted candles to decorate the altar of Peace Lutheran Church, Sunday, Aug. 16, where marriage vows were repeated by Pauline Ann Stein, and Maurice R. Riter, both of Galion. The single ring ceremony was used by the Rev. Philip E. Auer at 2:30 p.m.

The wedding was followed by a reception for relatives and friends at the home of the bride's parents, Mr. and Mrs. Paul Scherer. The couple left on a short wedding trip after which they will reside here.

Both Mr. Riter and his bride were graduated from Galion High School. He is employed at the Perfection Steel Body Co., here.

If a boy in El Salvador wants to serenade his girl friend in traditional Spanish fashion he must first pay $2 for a permit.

Inside Labor

By J. Edgar Hoover

This is the final column on Europe and the Near East by Victor Riesel, who has returned to coverage of the American scene

NAZARETH

Not even in this Holy City of eternal shrines does the Communist International's underground apparatus permit the world a moment of peace.

RIESEL

While travelers who have come across the world pause in meditation and prayer before going on to the ancient Sea of Galilee, the Comintern's agents have been desecrating this hillside town where Jesus taught and Joseph worked.

For in the adobe-like huts on the baked Arab quarters streets leading to Mary's Well, Mosco trained Arabs make their headquarters.

-:-

THEIR'S IS the task of infiltrating the thousands of Arab workers, stirring them against the Christian and Jewish world, awaiting only the moment when they can provoke violence in this Near Eastern city of 20,000 Arabs on the Haifa-Nazareth-Tiberius highway.

The Comintern knows full well what this city means to the Judeo-Christian world. Its desecration would be a symbol of victory for most of the Near Eastern Moslem world. And the Comintern would like to profit from such ghoulishness.

All this was organized among the Arab workers under the cover of a Near East trade union front called the Arab Trade Union Congress, launched by the Communist International in Jaffa back in the post war chaos of 1945.

-:-

THE BRITISH permitted this although the London Labor government knew full well that the Soviets had decided to organize the Arab Trade Union Congress only after its paid agents had failed to seize power in the Palestine Arab Workers Society, which had great influence in Nazareth, the sixth largest city of modern Israel.

The new Soviet front was operated by a band led by a Haifa Arab known as Bulus Farah, who now runs a Haifa restaurant. Farah was trained in Moscow as far back as the 30's for this operation, it might be well for us in the U. S. A. to remember.

He is just one of thousands of such men who've been placed in strategic spots which, all too soon, may become the Koreas of the little known Near East or North Africa.

It's fascinating to watch the Arabian operatives of the Comintern use the same tactics here which they use back home—modified only by local conditions.

-:-

TO GET it first-hand I went out across the rocky fields of the plains between Acre and Nazareth to the Arab village of Makar, where many a Crusader's camp was pitched.

With me was the soft spoken Eliahu Agazi, head of the Arab section of the energetically anti-Communist Jewish national union, Histadrut (Israel's AFL-CIO).

-:-

WITH AGAZI translating, I asked the Christian-Arab leader of the Histadrut's local union in that village, Mikhael Elias, and his Moslem Arab colleague, Sa'd Kial, just how the Commie operatives worked here.

"Their agents came to our villages to get us to demonstrate against your Foreign Secretary Dulles while he was here," Sa'd Kial said.

"They told us that Russia was the only anti-imperialist nation and that your country wanted to rule the world, including us. And they tried to exploit our post-war difficulties.

"They told us after the Jewish-Arab war that the Communists, if we voted for them, would eliminate the regulations which had us using identity cards and restricted us to our villages for a while.

"And they promised us abundant, free water. But the rope of lies is short. We rejected them."

-:-

THEN SOMETHING happened here that the world might well remember. At the entrance to the village was the usual well, surrounded by Arab women with gourds, shepherds and their flocks, and parched children.

Here, for the first time in this Arab and Bedouin filled desert, I saw a mechanized well.

Only a few weeks earlier, the village elders had to pay a "contractor" to supply a horse, which went 'round and 'round as did camels in the ancient days, to provide the power to bring up the water.

To pay for this one horse-power, the villagers were taxed.

Now water is being pumped up by a diesel motor, provided by the Israeli labor federation, Histadrut, and water is plentiful without political enslavements.

So, a little water to those who are parched the world over can win us the world. For as my friend said, "The rope of lies is short."

More Kinsey

By Inez Robb

If anyone is so ill-advised today as to stand up in meeting and ask "Who giveth this woman away?" echo will surely answer "Dr. Alfred Charles Kinsey."

INEZ ROBB

But the doctor himself, whose book "Sexual Behavior In The Human Female" is previewed today, doesn't believe that the contents of the book will shock its subject matter: women.

"I don't think what's been told about the female in the book is shocking," Dr. Kinsey assured me when I went to Bloomington, Ind, just a month ago to talk with him and read the closely - guarded proof-sheets of the tome.

-:-

DR. KINSEY went on to say that he had sent proof sheets of the book to a number of "intelligent women and female leaders" throughout the United States, asking their reaction to it.

"The universal reaction of females who have looked at the book is that the facts revealed are not shocking," he continued, as we sat in Dr. Kinsey's office on the campus of the University of Indiana, where he was an unknown professor of zoology until he published "Sexual Behavior in the Human Male" in 1948.

"All these women have said in effect 'thank God, this really portrays the female as she actually is. I feel it is a fair reflection of a large segment of the female population.'

"Feminists are well satisfied with the book," Dr. Kinsey added.

-:-

IT REMAINS to be seen whether the non-feminists will buy that sentiment, too, or whether Dr. Kinsey had better start ducking.

No one is more fully aware than Dr. Kinsey that the most explosive issue in the book is its emphasis throughout on the fact that for women any satisfactory type of premarital sex experience leads to quicker, easier and presumably happier adjustment to marriage itself.

This was the one facet of the book on which I hoped to question Dr. Kinsey when I was "granted" a private interview. But the author forestalled me.

"Of all the persons who have come to Bloomington to review the book and talk with me, only one has had the power to hurt me," complained Dr. Kinsey, a stockily-built man with a salt - and-pepper crew cut.

"One person in his review accused me of advocating complete sexual license. That is not true. There is no such intent in the book," the doctor cried vehemently.

-:-

FRANKLY, I had been both puzzled and disturbed by the book's obvious statistical conclusions.

"We do not recommend public policy," was Dr. Kinsey's lofty reply. "We draw a sharp line between analyzing data and suggesting public policy. We do not do the latter; that is for the public itself to decide."

"Some persons will believe that holding to the moral code is the only consideration while others will believe that anything that makes for a better or happier marriage is all to the good.

"Of course, public policy must be based on a great deal more than sex data. Such policy must be settled eventually on many bases, of which sex is only one."

The doctor was asked to what he attributed the angry and massive criticism of his report on men.

The author, who gave women away today with every copy of the family newspaper, answered briefly:

"A desire to defend the status quo."

Parade Planned as Another State Anniversary Feature

Sesquicentennial Style Show Will Be Held at Fair

By EDNA S. DUTTON

A style show in which costumes of early days will be modeled and a parade depicting the agricultural, industrial, educational and civic progress of Marion County will be highlights of the annual Marion County Fair which opens Saturday.

Both events are being sponsored by the Marion County Sesquicentennial Committee with the cooperation of the Fair Board.

The style show will be held Tuesday afternoon at 2:30 o'clock and the parade is scheduled for Wednesday afternoon at 2:30.

Cooperating with the style show chairmen, Mrs. Walter E. Hane and Miss Madge Cooper, are members of the Jaycettes Club who have helped in the collection of the clothes and also will serve as models for the show.

—:—

MISS CAROLYN CREAGER, Marion County Sesquicentennial Queen, attended by her court, will reign for the afternoon. Making up the queen's court are Mrs. James W. Williams, Miss Joanne Hofstetter, Miss Vivia Jones, and Miss Ruth Schertzer. The queen and her court will be in formal attire and Miss Creager will wear a crown fashioned by Lily Dache.

Members of the Jaycettes taking part in the show are Mrs. Jack Lautenslager, Mrs. Robert Veness, Mrs. William Parks, Mrs. William Luse, Mrs. Carl Mautz, Mrs. Grant Jolliff, Mrs. F. J. Peters, Mrs. Charles Peters, Mrs. Ted McArthur and Mrs. Don Lister. Mrs. Dale Healea will be the commentator.

The show will be held in front of the grandstand. Introducing the program will be Mrs. F. J. Peters as Miss 1803, who will ride around the track in a horse-drawn buggy to meet Miss 1953, portrayed by her twin sister, Mrs. Grant Jolliff, who will make her entrance in a 1953 model automobile.

—:—

IN CONTRAST to the costumes of 150 years ago and later, will be the newest in 1953 styles provided by Marion merchants and modeled by store models. A dance group will be an added attraction on the program.

Gowns, hats and shoes that were the pride and joy of Mrs. and Miss Marion County in the early days provide an interesting display. Of exquisite material and intriguing style, they range from the 1830's and 1840's to around the turn of the century. Several reflect the glamour of the South, having been brought North before and during the Civil War.

—:—

TO MENTION ONE OR TWO: A white handkerchief linen has a bodice of hand drawnwork and even the little buttons down the back are covered. The divided front panel is separated with a single panel of embroidered satin and the embroidery is repeated in the belt. It was worn by Mrs. J. D. Harrison of Caledonia in 1900. A black lace gown boasting of a flueur de lis pattern and worn over silk taffeta was imported and the style is echoed in today's smart models. Hand-made, the dress is braid trimmed and there is a swish at the back. Not found in today's gown are the whalebone supports in the basque and perhaps the elaborate sleeve trim. The dress which was made in New York City, is the property of Mrs. C. N. Sautter and at one time was in the wardrobe of Mrs. Jennie Furman, for many years a resident of Marion. There will be no judging of costumes.

Antique automobiles operating on their own power, machinery, floats depicting the progress of Marion County, buggies, bicycles and other antiques will be in the Wednesday afternoon parade. Cash prizes ranging from five to $25 will be awarded.

—:—

THE PARADE will be divided into five classes, floats depicting the early days, antique automobiles, best decorated float, horse drawn vehicles and saddle horses. In the automobile division will be one of the Sesquicentennial cars provided by the Sesquicentennial Commission headquarters in Columbus. Entered also is one dating back to 1908.

Judges for the parade are Howard McCurdy, representing the county, Jack Lautenslager, commercial and Robert O'Conell, industry.

Space is being provided for displays both in the Coliseum and on the grounds. Among the exhibits to be found on the grounds will be a threshing machine made by the Huber Mfg. Co. and used by Marion County farmers in the early days.

Companies and individuals wishing to have displays and exhibits at the fair may contact Clifford Campbell, secretary of the fair board, or Walter S. Guthrie at the office of the Marion County Commissioners.

Those in charge announce that all persons planning to take part in the parade must report at the grounds not later than 1:30 p.m. in order to be properly placed in the line.

Cost of Operating Car Increases by 6 Per Cent

NEW YORK (AP)—It costs almost 6 per cent more to run your car now than it did two years ago, says the American Automobile Assn.

Reporting its findings yesterday after a nationwide survey, the association said over-all car upkeep this year—for the average motorist who drives 10,000 miles annually—amounts to $908. The average figure in 1951 was $861.

The survey covered increases ranging from gasoline and oil prices to insurance fees.

Quintuplets To Go Separate Ways; Together 19 Years

NORTH BAY, Ont. (AP) — The Dionne quintuplets, together since they were born 19 years ago, are now to go their separate ways. Marie will become a nun and her sisters will continue school.

Their father, Oliva Dionne, told the North Bay Nugget last night that Marie will enter a Catholic religious order. Yvonne will study art with the Notre Dame Congegation in Montreal, and Cecile, Annette and Emilie will attend the Institute Familial in Nicolet, Que.

Dionne explained that the group was being broken up because the quints "are thinking seriously of their future."

Pfc. Taylor R. Harrison, Tilghman, Md.
Cpl. David E. Fortune, Pickens, S. C.

Pupils, Taxpayers Cheer When Fire Guts School

DENVER (AP)—When a $48,000 fire gutted Denver's Manual High School, the students were not alone in their cheering. They were joined today by taxpayers when the school board announced:

The school was abandoned at the end of the last school year, and the students are to enter a new, modern building across the street next month.

The loss was fully covered by insurance.

The city was saved much of the estimated $42,000 wrecking project it had planned.

Kinsey Report

(Continued from Page 1)

adultery, whereas about half of all husbands ultimately have extra-marital affairs. Some husbands encourage wives to do so.

Pre-marital Relations

About half of all women have sex relations before marriage, about half of them just with fiances. Only about two-thirds ever reach a climax in these pre-marital relations.

Most women reach a peak of sexual activities about the age of 27 or 28. Once they reach it—it can be earlier or later than that—they usually maintain a steady level of activity until their 50s or 60s, with little decline from aging.

But most men reach a peak of activity in their late 'teens, then steadily decline with age. The male peak is most often far higher than women's, so that male activity remains higher throughout life than the activity of most females.

Cause of Marital Problems

But the fact is most men are growing old in sexual capacity when their wives are becoming more interested and less inhibited in sex. This difference oftens leads to marital problems. It's still a mystery why women don't show this aging effect.

Of 33 kinds of psychological arousals toward sex, only three stimulated higher percentages of women than men. These three were seeing romantic movies, reading romantic literature, and being bitten. Men are usually more aroused by nude pictures, thoughts of sex, or other reminders.

A third of women are not aroused at all by any pschosexual stimuli. But 2 to 3 per cent are far more aroused than any man.

Psychological Reaction

Trouble often comes when men expect women to react psychologically as men do. Men often fail to realize that women are more easily distracted from sex by noise.

The ease of male mental arousal accounts for husbands wanting more frequent sexual contact, and men's difficulty is getting along without it. Wives often fail to understand that.

The sex response involves 20 bodily or physical changes, including faster pulse, higher blood pressure, shortage of oxygen, rapid breathing, lessened ability to see and hear.

Anger involves 14 of these same changes. Anger thus equals sex minus six.

This could explain some sex crimes, "why frustrated sexual response so readily turns into anger or rage," or anger can lead on to sex. It could explain why marital quarrels sometimes lead to love-making.

Fear Also Allied

Fear contains nine of the sex reactions, and epilepsy produces eight of them.

Basically, there's no difference in the anatomy and physiology of sex response in men and women. The nerve endings involved are the same.

People at times have tried schemes to abandon the family and home, but "none of these schemes has provided satisfactory substitutes for the home, and most of them have been short-lived. History confirms the importance of the family."

At marriage about one-third of women have never had a sexual climax through any method. But almost 100 per cent of men have.

The woman who experienced a climax before marriage, by any method, has two to three times better chance of achieving sexual success earlier in marriage. Kinsey says the meaning of this must be studied.

No One Meets Averages

No two persons are exactly alike in their sex lives, none fits entirely into all the averages Kinsey has yet found. Each person can easily believe that what she or he does is normal.

This individual variation "is the most persistent reality of human sexual behavior." And "there are no sexual qualities found in only one sex or the other."

Greater Extremes

Women show greater extremes in sex than do men. While some remain frigid, 14 per cent regularly have multiple climaxes during one sex act.

Women sense this greater variation, and so hesitate to discuss their sex lives with other women. This lack of comparing notes is often a reason for women's ignorance about sex.

Parents in the 20s, the time of the big change, were right in complaining about wildness of the younger generation. Since then there's been little change, and less criticism from parents because the parents had done the same things themselves.

The change in the 20s has reduced frigidity in marriage by one-third to one-half what it was among wives born before 1900.

Hormones No Key

There's little correlation between sex hormones and sex activity. The amounts of female or male sex hormones don't explain why males reach an early peak and decline, or why there's no such aging effect in women. Differences in amounts of certain adrenal hormones, called 17 - ketosteroids, might explain this difference.

Females do not develop earlier sexually than males. It is a mystery why adolescent girls are slower than boys to develop in sexual responsiveness. The 17-ketosteroids might be the reason.

There is no physical reason why women may be slower than men to reach a sexual climax. The average female is not slower if she is sufficiently stimulated physically, is not inhibited, and if effective techniques are used.

Book Has 842 Pages

Fifteen years in preparation, the new 842-page book will be published Sept. 14 (W. B. Saunders Co., Philadelphia, $8.00).

More readable than the male book published five years ago, the new report is authored by all 14 members of the staff of the Institute for Sex Research, Inc., at Indiana University. Main co-authors with Dr. Kinsey are Drs. Wardell B. Pomeroy, Clyde E. Martin and Paul H. Gebhard.

All profits from the book go to the institute to continue the male and female studies and for future reports on sex laws, marital adjustments, sex education and other projects.

The female report draws on interviews with 5,940 females aged 2 to 90, of various religions, education and occupations.

16,000 Volume Library

It also draws upon the institute's

DR. ALFRED C. KINSEY

16,000-volume sex library, upon studies by anthropologists, gynecologists, psychiatrists and other experts, upon analysis of sex laws, sex life in other countries, sex life of animals, and individuals' sex diaries and calendars.

Five special chapters tell the up-to-date story of the anatomy, physiology, psychology, nerve mechanisms and hormone influences in sex.

Despite its title, Dr. Kinsey says the book does not pretend to report sex behavior of all American women, much less women throughout the world.

It excludes Negro women because not enough had been interviewed. It has some limitations in geographical representation, but Dr. Kinsey says the findings are probably typical of many American females.

Scientific Objective

The purpose—as with other studies—is to learn scientific facts about a field of human activity long beclouded by ignorance, Dr. Kinsey explains. He holds that before sexual behavior can be understood, or any phases of it more intelligently controlled, it must first be learned what people actually do.

Other findings:

The decree of school education has less effect on sex behavior of women than men. Pre-marital relations were more common among girls who had gone to college and high school than among those of grade school education only. The opposite was true of men.

The "double standard" is becoming more of a single standard due to greater pre-marriage experiences of modern women.

Fewer women than men are homosexuals. Better educated women are more likely to be homosexual. Giving sexual hormones to homosexuals does not make them less homosexual.

It is untrue and harmful to many women to say that most women do not enjoy sex.

"The church, home, and school are the chief sources of sexual inhibitions, the distaste for all aspects of sex, the fears of physical difficulties which may be involved in sexual relations, and the feelings of guilt which many females carry with them into their marriages."

Laws and customs: 85-per cent of women and 95 per cent of men could be jailed for their sex acts by strict interpretation of laws.

"Many people, perhaps fortunately, have no conception that their everyday sexual activities may, in actuality, be contrary to law."

Others live in dread that their actions, considered normal by many other persons, may be found out.

In some states, a man can be jailed as a sexual psychopath for wanting sex relations oftener than his wife does, if a doctor judges his desires to be excessive. "Excessive" could be anything more than what the doctor himself does and believes is normal.

The law makes no provision for about 40 per cent of the population which is sexually mature, but not married, and "many youths and older unmarried females are seriously disturbed because the only sources of sexual outlet available to them are either legally or socially disapproved."

Marriage: "Men will never learn to get along better with women, or women with men, until each understands the other as they are, and not as they hope or imagine them to be."

About two-thirds of marriages at some time run into trouble over sex. Sex factors were among causes of 75 per cent of divorces in these case histories.

"Sexual adjustment represents only one aspect and not necessarily the most important aspect of marriage. No balanced program for American youth can be confined to preparing them only for the sexual relationship in marriage."

"There is no magic in the marriage ceremony which can make a person instantly lose all inhibitions about sex acquired since childhood."

"It is rather surprising that so many married couples are ever able to work out a satisfactory sexual arrangement."

Petting: About 40 per cent of girls have petted by age 15. Nearly 100 per cent of the younger generation pets before marriage, some to climaxes.

Many feel guilty, but "little has been said about the psychological disturbances and subsequent marital difficulties which may develop when there is such condemnation and constant belaboring of any type of behavior which has become so nearly universal, and which is as likely to remain universal, as petting is among American females and males."

Petting gives most girls their first real understanding of experience with the other sex. It gives a girl "an opportunity to learn to adjust emotionally to various types of males. Thus she may acquire some wisdom in choosing the particular male with whom she hopes to make a permanent, life-long adjustment."

Physical: All parts of the body, not just the sex organs, are involved in sexual response. Sexual reactions, because of their speed, apparently depend upon nerve mechanisms.

It is not true that women have more erogenous or sexually stimulating areas on their bodies than men.

Almost every sexual organ has its counterpart in the other sex, and the differences "are of no great significance in the origins and development of sexual response" and climax.

The brain controls reactions to psychosexual stimuli and differences in chemistry of men's and women's brains might explain their different reactions psychologically.

Smaller percentages of devoutly religious girls and women engage in pre-marital sex relations.

Venereal disease may be less a problem than it formerly was. Of 1,753 women having pre-marriage relations, only 44 ever contracted such a disease.

Too often what is called nymphomaniac is merely a person who has more climaxes than the doctor or other person to whom she is talking.

"It is apparent that if parents or other adults are to be the sources of a child's first information on sex, they must give that information by the time a child is 10 or 12," or earlier, or the child will learn from companions.

Official estimates say some 130,000 children are born out of wedlock annually in the United States, but "actual facts might multiply this figure several times." Of 2,094 women having pre-marital affairs (with union a total of 460,000 times) 476 became pregnant.

Humans learn a major part of their sexual techniques. They make choices, and develop preferences, as for blondes, brunettes, et cetera. Hormones have nothing to do with these choices. The choices and experiences usually come to seem reasonable to the person, though they may seem abnormal to someone with different experience.

Despite what Freud and some other psychiatrists say about the importance of childhood experiences, people do keep on learning, and "it is incorrect to minimize the importance of all except childhood behavior in the development of adult patterns of behavior."

Patrolman Named Acting Police Captain at Galion

Special to The Star

GALION — The appointment of Patrolman Howard Davis, 29, of Galion, as acting captain of the Galion police department was announced today by Service-Safety Director J. A. Anker.

The new acting captain has been in the department for nearly three years. He is a veteran of World War II, with three years in service, 18 months of which were spent in Italy.

Davis was appointed to fill a vacancy when Captain Morris Bowers was appointed acting chief of the department due to the death, July 30, of Chief James L. Walker. Permanent appointments to these positions will not be made until after a civil service examination is held.

Davis is married and has a small son and two small daughters.

LANCASTER STRIKE ENDS

LANCASTER, Ohio (AP)—A strike begun at Alten Foundry and Machine Works July 31 ended yesterday. Members of the AFL International Molders and Foundry Workers returned to work after ratifying a new contract.

8,000 Women Questioned in Getting Facts

BLOOMINGTON, Ind. (AP) — Dr. Alfred C. Kinsey says winning people's confidence and asking questions in a calm, objective way are two keys to getting facts on human sex lives.

He's interviewed college presidents, housewives and business exexutives, and even cracked the underworld to win confidence of shady men and women there.

In 15 years, he and three associates have interviewed some 16,000 men and women over the country. Of 8,000 women questioned, the case histories of 5,940 form much of the basis of his latest book.

An interview lasts 1½ to 3 hours and covers 300 questions, or up to 500 for persons with wide experiences.

He says he can't pick human subjects in the same statistical way as do interviewers about politics or other subjects to get a representative cross-section of the American public. For if you rapped on the door of homes chosen that way, many people would refuse to answer his very personal questions.

Dr. Kinsey's approach is first to win cooperation in different sections of communities, or through clubs or groups of all social levels, as well as through individuals. Often one person convinces another to cooperate. This happens in the underworld and by such confidences Dr. Kinsey may actually know more about rackets and crime in some cities than many police officials.

Dr. Kinsey explains everything told to him will be kept strictly confidential, by secret codes.

He explains a main reason for starting the sex studies: How students at Indiana University asked him, a zoology professor, questions about sex to which he could not find factual answers, anywhere, and, how little was actually known, scientifically, about human sex behavior.

Capt. Donald F. Garver of 256 N. State St. is at Ft. Campbell, Ky., undergoing two weeks of training with the Army Reserve corps assisting the personel officer in the post adjutants office.

During World War II, Capt. Garver served in the Army Postal Service, European Theater. He is employed at the Postoffice here.

—:—

Pvt. Stanley J. Sobas, son of Mr. and Mrs. Walter Sobas of near New Bloomington, recently completed basic training at the quartermaster replacement training center at Ft. Lee, Va. He entered the service June 11 after graduating from LaRue High School.

—:—

Cpl. Robert E. Lewis, son of Mr. and Mrs. William Lewis of Crestline, recently graduated from the Army's Engineer School at Murnau, Germany. He received training in the use of explosives, mines and booby traps to qualify as Engineer demolition specialist. Stationed with the 38th Engineer Pontoon Bridge Co. in Kornwestheim, Cpl. Lewis entered the Army in February, 1950, and arrived overseas last January. Among his decorations are the Purple Heart for wounds received in action, combat infantryman badge, and the Korean Service Ribbon.

—:—

Pfc. Byron R. Brown, son of Mr. and Mrs. Kenneth Brown of 180 S. Fulton St., Richwood, returned home Wednesday from Korea. Pfc. Brown will spend 30 days at home before reporting to an Air Force base in Texas. He has served in Korea seven months. Brown took basic training at Baltimore, Md. and has been in the service for one and one-half years.

Noted Persons Taken by Death

By THE ASSOCIATED PRESS

ROME — Dr. Costanzo Einaudi, 77, younger brother of 79-year-old President Luigi Einaudi of Italy. Died Tuesday.

—:—

School Nurse Says Children Must Have Vaccinations, Shots

A final warning that first and second graders entering Marion City schools the first time this fall must be immunized against diphtheria and vaccinated against smallpox was issued today

Mrs. Lois Ansley, school nurse, noted that there is less than three weeks until schools open. She added that immunization and vaccination are compulsory before the child may enter class.

Local physicians have been provided with necessary forms verifying a child has received shots and vaccination, she said. Those families which are financially unable to meet this requirement may contact Mrs. Ansley at the Board of Education office on S. Prospect St. for appropriate assistance.

Another requirement is that first graders and new second graders must present a birth or mother's certificate before they may be admitted to class, Mrs. Ansley said.

ENTERTAINS CLASS

Mr. and Mrs. Leonard Roesch of Iberia entertained the Iberia Methodist Willing Workers Class when a hamburg fry was held Thursday night at their home. Miss Ruby McBride of Fresno, O., was guest speaker.

Community Shower Set For Iberia Newlyweds

Special to The Star

IBERIA —A community shower will be held Friday night here for newlyweds, Mr. and Mrs. Dean Schickedantz. Mrs. Schickedantz is the former Gladys Perman, daughter of the late Mr. and Mrs. Louis Hoffman of near Leesville. Mr. Schickedantz is the son of Mr. and Mrs. E. H. Schickedantz of Iberia.

The couple exchanged nuptial vows at St. John's Lutheran Church in Sulphur Springs on Aug. 5. The Rev. Harold R. Shank performed the 2:30 p.m. service. The bride wore for her wedding a robin egg blue suit with white accessories. Her corsage was of pink carnations and rose buds.

They left immediately for a wedding trip through the southern states.

The bride has been employed with Dr. Studer at Crestline and the bridegroom is a supervisor at the Cemco Industries Inc. at Galion.

They were honored with a reception Sunday, Aug. 16, at the home of the bridegroom's parents and received many gifts.

Friends and neighbors are invited to attend the community shower Friday.

Deaths and Funerals

Joseph B. Landon

Joseph B. Landon, 86, retired farmer of 132 E. Farming St., died at 7:30 p.m. Wednesday in City Hospital. He was ill three weeks.

Born Dec. 25, 1866, in Union County, he was a son of Russell and Sabina Rogers Landon. Aug. 27, 1891, in Richwood, he married Margaret Spicer. He was a member of Wesley Methodist Church in Marion.

Surviving are his widow, and children, Delbert Landon of Killbuck, O., Lloyd of Forest, Bovard of Lakeview, Mrs. Catherine Hartshorn of 791 Merkle Ave. in Marion, and Mrs. Lucille Titus of 515 Blaine Ave., 35 grandchildren, a sister, Mrs. Gertrude Simmons of Sheridan Rd., in Marion, and a brother, Orange Landon of Richwood. A daughter and a son preceded him in death.

Funeral services will be conducted Saturday at 2 p.m. in the Schaffner-Denzer Funeral Home on E. Center St. Rev. W. Lincoln Stafford of Wesley Church will officiate. Burial will be in Chapel Heights Memory Gardens. Friends may call at the funeral home after 7:30 tonight.

William H. Noble

William N. Noble, 86, Delaware businessman and a native of Prospect, died Wednesday night in University Hospital at Columbus. He was ill six weeks. In Delaware, he operated the Swickheimer and Noble Furniture Store 40 years, then later had an insurance agency.

Surviving are his widow, Mrs. Alice Noble, and children, Mrs. George W. Reading of Boston, Mass., and Mrs. Thomas Graham of Delaware.

Funeral services will be conducted Saturday at 2 p.m. in the Ramsey - Bennett - Brown Funeral Home in Delaware. Burial will be in Oak Grove Cemetery. Friends may call at the funeral home.

Mrs. Isaac Elliott

Mrs. Maude Berry Elliott, 73, of 701 May St. died at 2:55 p.m. Wednesday in City Hospital. She was ill seven months.

Born July 31, 1880, at Broadway, O., she was a daughter of William and Anna Anthony Berry, the father a native of Marion County and the mother of Raymond, O. Dec. 23, 1897, in West Liberty, she married Isaac Arthur Elliott who died in Marion Feb. 4, 1944. A resident of Marion 50 years, she came here from Union County. She was a member of the Church of Christ in Christian Union.

Surviving are children, Hector H. Elliott of the May St. address, Mrs. John Richads of 567 Avondale Ave., Mrs. John W. Keirns of 549 Toledo Ave., Eugene L. Elliott of 393 Toledo Ave., and Mrs. Charles O. Randall of LaGrange, Ind., 10 grandchildren, three great grandchildren, and brothers, John Berry of Lee St. in Marion, Pearl of Minneapolis, Minn., Ernest of Patterson St. in Marion, Victor of Jefferson St. and Lester of Thompson St. A sister preceded her in death.

Funeral services will be conducted Saturday at 10 a.m. in the M. H. Gunder and Sons Funeral Home on W. Center St. Rev. Melvin Truex will officiate. Burial will be in Marion Cemetery. Friends may call at the funeral home after 7:30 tonight.

Carlton Overly

Carlton Overly, 58, former Galion resident and husband of a former Marion woman, died Friday night at Kansas City, Mo. Place of death was Trinity Lutheran Hospital there. His home was in Kansas City, and he had visited here in June. Funeral services were conducted Tuesday at Kansas City, at a funeral home, and burial was in Floral Hills Cemetery there.

Mr. Overly was a native of Morrow County. In 1915, he married Miss Sue Layman of Marion, and went to Kansas City in 1919. He was a supervisor-instructor for the Kansas City Public Service Co. and had worked for the company 34 years.

Surviving are his widow, and children, Mrs. Vera Williams and LeRoy Overly, both of Kansas City, and Mrs. Martha Machael of New Jersey, two grandchildren, and brothers, Curtis of the state of Washington, and Russell of Florida. A brother who was a resident of Wisconsin died in July.

Relatives attending the funeral services from Ohio included Mr. and Mrs. Harry Dutt of near Waldo, Mr. and Mrs. Robert Dutt of near Cardington, Horace Wilson of near Delaware, and Mr. and Mrs. Ray Layman, Mrs. James Hall, and Mrs. H. D. Freese, all of Marion.

Mrs. Jessie M. Avery

GALION — Funeral services for Mrs. Jessie M. Avery, mother of Mrs. Robert T. Campbell of Galion, were held today at 2:30 p.m. in Norwalk. The Rev. C. H. Gross, rector of the Episcopal Church, officiated, and burial was made in Woodlawn Cemetery.

Mrs. Avery died Tuesday. She was born in Cleveland, but had lived in Norwalk for a number of years. Her husband preceded her in death in 1935.

Survivors are her daughter, Mrs. Campbell of Galion; and a son, Fred L. Avery of Norwalk; two grandchildren and four nieces.

Demeres Combs

CRESTLINE —Demeres Combs, 49, Crestline laborer, died at 6 a.m. Wednesday in Emergency Hospital in Crestline. He was brought to the hospital early Tuesday night after being found ill on Railroad Ave. near W. Bucyrus St., along the railroad track. Frank Sample who was walking on the street discovered the unconscious man. Dr. Martin Horowitz of Galion, acting Crawford County coroner, has not completed investigation.

Born Feb. 22, 1904, in Martin, Ga., Mr. Combs was a son of Mr. and Mrs. Julius Combs who are now residents of Crestline. He came to Crestline in January from Detroit, Mich.

Surviving are his widow, Mrs. Mattie Hoke Combs, his parents, and sons, Thomas and Carl, both of Detroit, and a brother, Garfield Combs of Mansfield.

Funeral services will be conducted Friday at 2 p.m. in the Baptist Church by Rev. J. D. Mattison. Burial will be in Greenlawn Cemetery, Crestline. Friends may call at the Beck Funeral Home.

Webster G. Tischer

GALION — Webster G. Tischer, 83, of Galion died at 8 p.m. Wednesday in Galion City Hospital. Ill five years, he was admitted to the hospital six weeks ago.

Born Aug. 3, 1870, in Morrow County, he was a son of Jacob H. and Leah Garverick Tischer. Nov. 19, 1896, in Galion, he married Orpha Heffelfinger who died March 2, this year. A resident of Galion 26 years, he came here from Morrow County where he had farmed. In Galion he first worked at the Gledhill Lumber Co., then later was a guard at the Central Ohio Steel Products Co. He was a member of First Evangelical and Reformed Church.

Surviving are a daughter, Mrs. Frieda Parks of Galion, and a sister, Mrs. Frank Shier of Galion. A daughter, three sisters and two brothers preceded him in death.

Funeral services will be conducted Saturday at 2 p.m. in the Snyder Funeral Home. Rev. R. R. Elliker will officiate. Burial will be in Bryn Zion Cemetery east of Mt. Gilead. Friends may call at the funeral home after 7 tonight.

-Funeral Services-

Delos H. Jacobs — Friday 1:30 p.m., Merle H. Hughes Mortuary, Rev. Howard L. Olewiler, burial Marion Cemetery. Friends may call at the funeral home after 7:30 tonight.

Carl W. Schiefer — Friday 1:30 p.m., Munz Funeral Home, Bucyrus, Rev. H. E. Eswine, burlai Brokensword Cemetery. Friends may call at the funeral home tonight.

Mrs. Elizabeth M. Knieriemen —Saturday 2 p.m., Pietist Church near Bucyrus, Rev. R. H. Opperman, burial College Hill Cemetery near Chatfield. Friends may call at the Knieriemen home near Bloomville after Friday noon.

Clint Northrup — Friday 2:30 p.m., Northrup home west of Prospect, Rev. L. L. Young, burial Prospect Cemetery. Friends may call at the home.

Mrs. Margaret Williams — Friday 10 a.m., Faulkner Funeral Home, Marysville, Rev. M. E. Hollensen, burial Marysville Cemetery. Friends may call at the funeral home tonight.

11 Motorists Arrested By Highway Patrolmen

Eleven arrests were made by state patrolmen from the Marion post on Wednesday.

Persons arrested, their charge and disposition of cases follow: Elmer Stout, 34, of Dayton, passing on the yellow line, fined $10 and costs by Mayor Don Healea at Cardington; Thelma Schrimel, 43, of Dayton, passing on the yellow line, fined $10 and costs by Justice of Peace R. R. Bennington at Mt. Gilead; Robert Render, 31, of Dayton, passing on the yellow line, fined $10 and costs by Bennington; John R. Wilson, 18, of Cardington, speeding, fined $10 and costs by Justice of Peace Paul Richeson at Cardington; Willie S. Timmins, 67, of Dallas, Tex., speeding, fined $15 and costs by Justice of Peace Alvin Spriggs at Mt. Gilead.

Robert Jacoby, of Shelbyville, Mich., speeding, forfeited $25 bond in Mayor Frank Sitler's Court at Bucyrus; Robert Hietz, 21, of near Crestline, speeding, cited to appear before Mayor Nelson Lee at Crestline on Aug. 21; William J. Blicke, 16, of Bucyrus, speeding, cited to appear before Juvenile Judge Edward Ruzzo at a later date; James Newman, 31, of Wayne, Mich., speeding, posted bond for Aug. 21 appearance in Municipal Court; Ernest Essex, 41, of Hemlock, O., following too closely fined $15 and costs in Municipal Court; Ralph E. Hord, 53, of Mt. Gilead, speeding, fined $15 and costs in Municipal Court.

N.Y. Stock Quotations

NEW YORK (AP)—Railroads provided the chief prop today for a slightly higher stock market.

In significant areas, gains ran into the major fractions while losses went to around a point. Plus signs, however, held a numerical edge.

Trading was relatively light with the rate well under yesterday's 1,400,000 shares.

Aircrafts, chemicals and utilities lined up with the rails in the move ahead. The oils and coppers lagged. Other seconds such as steels and motors held fairly steady.

Higher stocks included Southern Railway, New York Central, Consolidated Natural Gas, Allied Chemical, American Tobacco, Chrysler, and Boeing.

Lower were Texas Co., Johns-Manville, American Smelting, and General Electric.

Two Accidents Listed in Area

Slight Injuries to 2 Reported by Patrol

Two North Carolina persons were slightly injured in one of two minor accidents reported today by state highway patrolmen and city police.

Paul S. Carted, 27, of Boonville, N. C., driver of one car, sustained cuts and bruises of the left shoulder, and a passenger in his car, Grace Carder, 21, suffered a broken tooth and laceration of the lip. They were taken to Morrow County Hospital at Mt. Gilead by a passing motorist.

Driver of the other car was H.C. Ownbey, 18, of Oklahoma City, Okla., who lost control of his auto while passing traffic on Route 42, a half mile south of Route 324 in Morrow County, at 5:20 a.m. today. The southbound Ownbey car swerved across the highway and hit the northbound Carder auto which had stopped on the berm of the road. The complete left side of the Ownbey car had heavy damage, while the left front end of the Carder auto had moderate damage.

Ownbey was arrested by highway patrolmen for unsafe operation and was fined $15 and costs by Justice of Peace R. R. Bennington at Mt. Gilead.

One minor, no-injury accident was reported by Marion police.

Cars driven by Arthur W. Shaw, 42, of near Prospect and Harvey O. Dunaway, 45, of near Cardington were damaged in a collision on Davids St. near W. Center St. at 7:08 a.m. today.

GRAIN MARKET

Chicago Grain Market

CHICAGO (AP)—Grains opened a little lower in fairly active dealings on the Board of Trade today.

In wheat, there was a carryover of the late selling in the previous session. However, the bread cereal met a good demand and prices resounded after initial transactions.

Wheat started ¼ to 1 cent lower, September $1.81-$1.81½, corn was ⅛ to ¾ lower, September $1.46⅞, oats were ¼ to 1 cent lower September 74¼-73¾, and soybeans were ½ to 1⅜ lower, September $2.42½-⅛.

PRODUCE

Local Produce

Butter fat No. 1 pound, .59; No. 2 pound, .54.

Cleveland

CLEVELAND (AP)—U.S. Dept. of Agriculture produce market: Cucumbers (outdoor), baskets of 24, 50-1.00, mostly 85-1.00; baskets of 30 and 36, 40-46, tomatoes, outdoor 10 lb basket medium to large many fair quality 50-75, some best 90-1.00, pinks 75-1.25; lettuce 10 lbs baskets leaf, 1.00-1.75; big Boston type lettuce, 16 heads 65-85; Romaine 65-75.

Tomato Swiss Steak Leads to a Celebration

Want to say "Let's celebrate!" to your family? Then put dinner in a celebrating mood with a platter of Swiss steak cooked in a savory tomato-soup sauce. Whether you cook it on top of the stove or make a complete oven meal of it with scalloped potatoes and French fried onions alongside, you'll find it's a simple matter to prepare a festive dinner.

TOMATO SWISS STEAK

Ingredients: 2 to 2½ lbs. steak (round or chuck cut 1½ inches thick), ½ cup flour, 1 teaspoon salt, dash of pepper, ¼ cup shortening, melted, 1 cup chopped onion, 2 large cloves of garlic, minced, 2 cans (2½ cups) condensed tomato soup.

Method: Pound flour and seasonings into meat with the edge of a heavy saucer until flour is absorbed. Brown steak in hot shortening in an oven, pan or skillet Add onion and garlic; cook until limp. Blend in soup; cover. Cook over low heat or in a moderate oven (350 F.) about 1½ hours, or until meat is tender. Serves six.

Green Camp Scouts Take Michigan Camping Trip

Special to The Star

GREEN CAMP — Green Camp Boy Scout Troop 24 sponsored, by the Methodist Men, has returned from a four-day camping trip in the Irish Hills of Michigan and is now planning a campfire and court of honor ceremony for Sept. 6 at the church.

The troop left Aug. 10 by automobile for the Walter J. Hayes State Park, nine miles west of Clinton, Mich. The park is within half a mile of Wampler's and Round Lakes. Scoutmaster Edwin Schwaderer assisted by Irey Delong and Glee Baker were leaders.

Large and small mouth bass, bluegill, perch and pike inhabit the lake waters where the Scouts visited. There was an extensive wooded camping ground with a sanitary water system, bath house, store and service building, boat livery and group camping building and horse back riding. The troop worked on projects and participated in fishing, boating and swimming.

On Aug. 12, the scoutmaster and leaders were guests of Mr. and Mrs. Al Schnaufer and family of Marion who own a cottage on Wampler's Lake. That evening, the entire troop visited the Sparks Foundation Cascades in Jackson, Mich.

Those making the trip in addition to the leaders were Bobby Williams, Gary Delong, Tommy Reynolds, Darryl Rice, Evan Christian, Donny Baker, Junior Shaw and Steve Ward, Edith Schwaderer, Gloria Porter and Ivanelle Ward.

Boys passing their tenderfoot requirements on the trip were Junior Shaw and Steve Ward. Evan Christian passed second class requirements.

REUNIONS

FRANCIS

The fourth annual reunion of the decendants of Curtiss and Emma Francis was held Sunday at Lincoln Park. Sixty-four were present. Present were three sets of twins, a son and daughter of Mr. and Mrs. Gayle E. Horseman of Ypsilanti, Mich. Mr. and Mrs. Curtis Francis of near Morral and Mr. and Mrs. Howard Knoderer of Pataskala. Others attending were from Youngstown, Toledo, Bradner, Kenton, Morral, Columbus, Buckeye Lake and Marion. Mrs. Mary Weidemaier of Marion was the president of the reunion.

Clever Crook Puts His Victim in Jail

MANSFIELD, La. (AP)—A young man walked into the De Soto Paish Courthouse yesterday and asked Sheriff Harmon Burgess if an uncle could sober up on a jail cot.

Burgess said the man put his uncle to bed and left, saying he would be back later for him.

When the older man sobered up, the sheriff related, he said he didn't have a nephew, then discovered he didn't have a car either.

An alert was out today for a young man, about 20, driving an automobile loaded with luggage, a television set and several small appliances.

Army Cook Decorated; His Food Was Excellent

RICHMOND, Va. (AP)—The Army has awarded a Bronze Star to former Sgt. Boyce Edwards of Fairfield, Va.—for being a good cook.

Edwards, recently discharged after a hitch in Korea with the 196th Field Artillery Battalion, 10th Corps, received a citation which said:

"The ingenuity in food preparation and inexhaustible energy demonstrated by him assisted in maintaining a high quality mess.

"Any meal prepared by him was sure to be palatable, which was an ever present factor in the excellent morale enjoyed by his unit."

MRS. FILBERT PAYS YOU 60¢!

—if your husband isn't fooled by her sweeter, fresher margarine!

"I'm sure your husband will think my Mrs. Filbert's Margarine tastes better than costly spreads. That's why I make my 60¢ offer to you. Wives write me they serve Mrs. Filbert's Margarine every meal even to fussy husbands. I fortify every pound with 15,000 units of Vitamin A. Serve some tonight!"

Mrs. M. V. Filbert

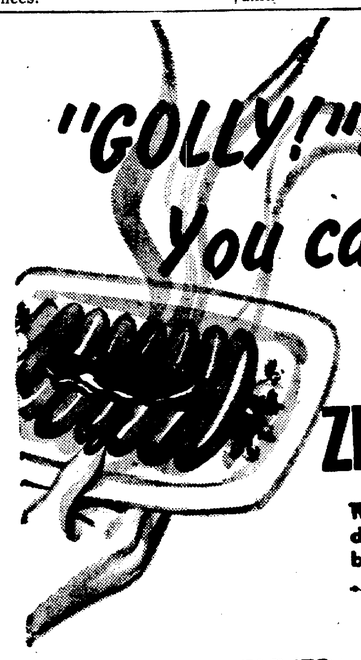
60¢ OFFER

1. Serve your husband Mrs. Filbert's Margarine tonight, but don't say a word.
2. If you don't fool him—if he doesn't think it's a more expensive spread—just send her the carton and a note with his reasons. Mrs. Filbert will send you 60¢.

And only a woman could Make it Spread So Smo-o-th!

MRS. FILBERT'S MARGARINE

"GOLLY!"... You can't feed me too many ZEHNER WIENERS!



That's your tip! Men love the robust, real hot-dog-flavor of Zehner Wieners! You can't beat their delicious, smoky goodness. And . . . they're Zehner . . . so they're leanest!

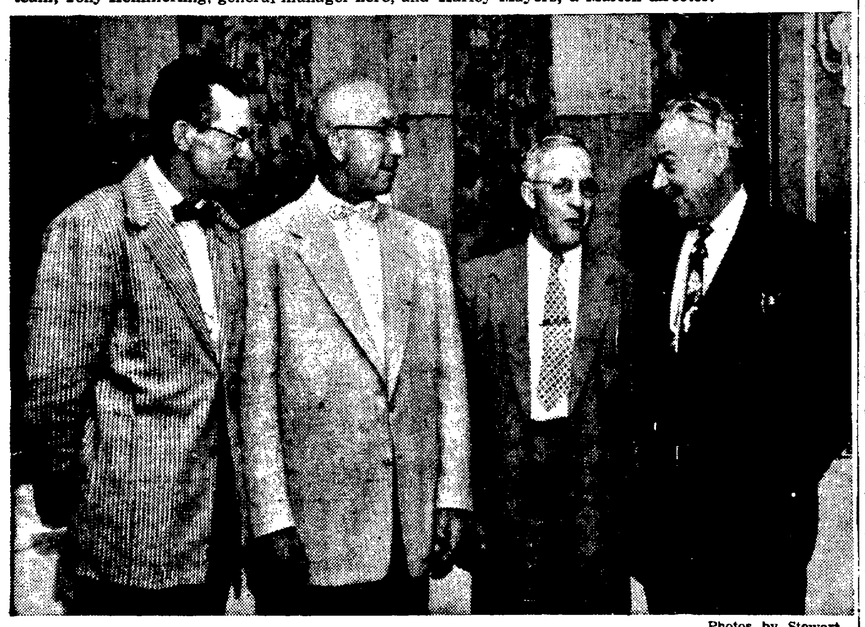
Barons To Open 64-Game Hockey Schedule Oct. 14

OFFICIALS OF THE MARION BARONS and the parent Cleveland club are shown here during Wednesday's meeting. The two clubs were hosts at a dinner meeting at Hotel Harding. The group includes left to right, Jim Handy, general manager of the Cleveland club, Frank Foster, president of the Marion team, Tony Hemmerling, general manager here, and Harley Mayers, a Marion director.



Photos by Stewart

OTHER PERSONS ACTIVE IN the drive to bring hockey to Marion and who will work with the local team are left to right, Lee Watson, who will be in charge of caring for the rink, Clyde Hinamon, Ray Reidenbaugh and Robert White. Hinamon, Reidenbaugh and White are directors for the local club.

IHL Directors Admit 9th Team at Board Meeting

Marion's newly-organized hockey team will make its league debut next Oct. 14 when the Cincinnati Mohawks appear at the Coliseum.

That was the date set for Marion's first game as a member of the International Hockey League at a meeting of the league directors held Wednesday at Hotel Harding.

An entire schedule was planned during a lengthy meeting of the directors but will be subject to changes before it becomes official.

Top item on the agenda was the approval of Johnstown, Pa., as the ninth member of the league. The Johnstown club, a member of the Eastern Hockey League, last year, had been jockeying for admittance to the IHL for several weeks. The biggest obstacle in its path had been the question of distance between league cities. While league directors met in secret it was known that one faction opposed the new club while another faction was in favor of its admittance.

Yesterday's vote, which also was held in a closed session, showed four of the eight clubs in favor while four voted against the new entrant. Fred A. Huber Jr., secretary - treasurer of the circuit, cast the deciding vote which admitted the new member.

The Johnstown Jets will open the season at home against Troy, O., Oct. 15.

Admission of the Jets increases the International Hockey League to nine clubs. Other teams, in addition to the Marion Barons, farm club of the Cleveland Barons, and Johnstown, include Grand Rapids, Mich., Milwaukee, Fort Wayne, Ind., Louisville, Troy, Toledo and Cincinnati. Cincinnati's Mohawks, against whom the Barons open the season, walked off with the league crown last year with Troy finishing in the runner-up spot.

Tentative plans call for a 64 - game schedule. Each team will play 32 at home and 32 on the road. That means that each team will appear eight times in each opposition city.

Following the directors' meeting, the Marion Barons were host to a dinner meeting of league officials and press and radio men from the central Ohio area. Frank Foster, president of the local Barons, introduced members of the board of directors of the local team along with representatives of the parent Cleveland club. Jim Hendy, general manager of the Cleveland team, was present along with Tony Hemmerling, who last week was appointed general manager of the Marion club. Also introduced by Foster were Frank Gallager, president of the IHL, Huber, Clyde Hinamon, Ray Reidenbaugh and Robert White, directors of the local team, and several area radio and newsmen.

The local Barons will also stage an exhibition match with their parent club, the Cleveland Barons, at the Coliseum, on Oct. 11.

League officials are expected to announce the revised 64-game league schedule later this week or early next week.

Marion Metal Clinches Title

Marion Metal wrapped up the second round championship of the Industrial Softball League No. 2 at Garfield Park Wednesday by defeating the C & O Railroad 10-8.

The winners finished the second round with a perfect record of six wins and no loses. Marion Metal and the C & O will clash next Wednesday in a play-off game to determine the Industrial League championship. The C & O copped the first round title. It will be a one game play-off with the winner representing the No. 2 Industrial Loop in the Little World Series.

Marion Metal scored four runs in the top half of the seventh to defeat the Railroaders, who have dropped three games in second round action. McGowen received credit for the victory while Whiteman absorbed the loss for the C & O.

In the only other game played, Gasco-Maish defeated McMillen Feed by a 9-5 count. Recovering after losing three players due to injuries the Gasco-Maish crew scored all of their nine tallies between the second and fifth inning to record its first win of the second round. Howard Gilbert went the distance for the winners, spreading six hits over the seven innings.

Seixas Shakes Off Effects of Injured Knee

BROOKLINE, Mass. (AP) — Vic Seixas' wrenched knee, which was expected to doom the U. S. Davis Cup team, as far as the National Doubles Tennis Tournament was concerned, improves daily, much to the surprise of Harry Hopman, nonplaying captain of the Australian defenders.

After watching Seixas and Tony Trabert, the U. S. team's other key player, go through their postponed first-round doubles match here at Longwood Tuesday, Hopman was certain his players had nothing to worry about.

In fact, Hopman felt so confident about his Lewis Hoad and Ken Rosewall that he amazed many tennis experts by calling those 18-year-olds the equals of Australia's great Frank Sedgman and Ken McGregor. The latter two turned professional after protecting the Davis Cup last December.

After giving his knee, injured while playing Trabert in last Sunday's Newport Casino singles final, a whirlpool bath treatment, Sexias was extremely helpful to the stylish Trabert as they topped Pablo Eisenberg of Milburn, N. J., and Ed Dailey of Harrisburg, Pa., 7-5, 6-4, 6-3, in their second-round engagement.

All the other men's teams were in third-round action yesterday and Hopman appeared deeply concerned after Hoad and Rosewall ran into difficulties while subduing Luis Ayala of Chile and Bob Perry of Los Angeles 10-8, 6-3, 6-2.

As soon as Hoad and Rosewall qualified for today's quarter-finals, Hopman ordered both of them to a practice court. There they worked hard on al of their strokes before Hopman excused them.

During yesterday's action, three other Davis Cup doubies teams were ousted. Denmark's colorful Torben Ulrich and Kurt Nielsen were beaten by Frank Guernsey of Garden City, N. Y., and Hamilton Richardson of Baton Rouge, La., 9-7, 6-4, 1-6, 7-5. Mexico's Francisco Contreras and Joaquinn Reyes were ousted by Straight Clark of Pasadena, Calif., and Hal Burows of Charlottesville, Va., 8-6, 7-5, 6-4. Japan's Atsushi Miyagi and Kosei Kamo bowed to Grant Golden of Chicago and Bernie Bartzen of San Angelo, Tex., 6-4, 3-6, 3-6, 7-5, 6-3.

Ordered Off Feet

Marion Motley Benched, Old Knee Injury Pops Up

CLEVELAND (AP)—The future of Marion Motley was clouded today as the Cleveland Browns planned to fly to California without the big fullback.

Motley suffered a recurrence of his old knee trouble at the Browns' camp at Hiram yesterday and was ordered to stay off his feet for several days.

Dr. Vic Ippolito, team physician, diagnosed the injury as a sprained ligament and said it was too early to tell whether it might mean an end to Motley's career.

Motley has been bothered with knee trouble over the last several years, but had looked sharp in early workouts this season. Last week the knee trouble bothered him again and some fluid was drained.

The latest injury came when he was standing in the corridor of the Browns' dormitory and heard something snap when he turned to call to another player.

The Browns open their exhibition schedule against San Francisco Sunday. On Aug. 28, they meet the Los Angeles Rams.

Chuck Volo Going After Repeat Win

YONKERS, N. Y. (AP) — Chuck Volo, the surprise 36-to-1 longshot who won the $50,000 Nassau Pace at Roosevelt Raceway three weeks ago in world record time, will try to repeat tonight in the $25,000 Yonkers Pacing Derby at Yonkers Raceway.

The brown 5-year-old son of Volomite, out most of last year with a broken foot bone, is owned by S. A. Wathen. A dozen speedy pacers are scheduled to face the starter in the derby.

The probale favorite in the mile and one half race is Direct Rhythm from the stable of W. G. Reynolds, Louisville, who also will start Meadow Rice. The Kentucky entry was listed at 2 to 1, with Chuck Volo 4 to 1.

2-Year-Olds Run At Illinois Track

SPRINGFIELD, Ill. (AP) — Previews of the 1954 Hambletonian and Little Brown Jug stakes, top harness racing events, will be offered at the Illinois State fair today when the Greyhound 2-year-old trot and Little Pat 2-year-old pace present the leading juveniles racing on the Grand Circuit.

Fifteen have been named in the Greyhound, which really lifts the lid on 2-year-olds of the season. A field of 19 has been named for the Little Pat.

Review Futurity 3-year-old pace also will be on today's car.

Kimberly Kid, owned by Allwood Farms of Far Hills, N. J., took his place as one of the standout 3-year-old trotters when he won the Review trot yesterday, beating a field of 15, including 10 other contenders in last week's Hambletonian. His time in each of the three heats was faster than that at Goshen last week—2:04.4; 2:01 and 2:01.2.

At the same time, Helicopter, who won the Hambletonian, finished second in a race limited to three-year-old trotters of her own sex when Castleton Farms' Earl's Song won, setting a season's record for age, gait and sex by taking her first heat in 2:02.2.

Caddie Golf Tourney Enters Second Round

COLUMBUS, OHIO (AP)—The National Caddie Golf Tournament swings into its second day of match play today with a college education riding on every stroke.

Pre-tourney favorites and qualifying round leaders won handily in the first two rounds yesterday but the pressure is mounting for the young bag-toters. Semi-finals are tomorrow and finals Saturday. Some $5,000 in scholarships await the winners.

Franic Malara of White Plains, N. Y., and Lloyd Syron of Pontiac, Mich., were the qualifying medalists and they kept stride yesterday with easy victories.

Cellar Dwelling Browns Give Pierce More Trouble

By BEN PHLEGAR
AP Sports Writer

If you've got a streak running it's best to stay away from the St. Louis Browns. Just ask Billy Pierce.

The Browns have given the little Chicago left-hander nothing but trouble this season. He has an excellent 16-8 record but look what the lowly St. Louis outfit has done to him.

In his first start, April 16, Pierce had a no-hitter going for six innings. Then Bobby Young doubled and spoiled it.

Ten days later the Browns beat him 7-2 for his first loss in 10 starts dating well back into the 1952 season.

On June 30 the White Sox were riding a seven - game winning streak. But they threw Pierce at the Browns and lost 4-2.

Yesterday Pierce faced St. Louis with a string of 34 scoreless innings in his last four appearances. The Browns snapped it at 40 with a pair of unearned taliles and went on to score two earned runs in the 10th and win the game 4-3. The fast-balling southpaw had pitched 51 innings without giving up an earned run.

The slipup against St. Louis cost the White Sox a full game in their more and more futile pursuit of the New York Yankees. The Yanks edged Washington 2-0 and now lead the league by 8½ games.

Boston defeated Philadelphia 6-4 and Detroit whipped Cleveland's Early Wynn for the first time in three seasons 4-2.

Brooklyn continued its whirlwind drive toward the National League pennant with its 12th straight victory, an uphill 7-5 triumph over the New York Giants.

Milwaukee edged Cinncinati 3-2 and stayed 8½ games back of the Dodgers. Pittsburgh beat Philadelphia 5-3. Chicago defeated St. Louis by the same score.

For 2 2-3 innings Washington continued its mastery over the Yanks. Then Yogi Berra got the first New York hit, a home run. Al Sima gave up only three other hits and one more run, but his teammates couldn't do anything with Jim McDonald, who also yielded four safeties.

Ted Williams hit his third home run since returning to action, providing the Red Sox' victory margin over Philadelphia.

Home runs by Bob Nieman and Steve Souchock helped Billy Hoeft break his four-game losing streak with a decision over Cleveland.

Three-run rallies in the third and eighth innings enabled Brooklyn to overtake and whip the Giants, who had built a 5-1 lead. Duke Snider's single with the bases loaded in the eighth produced the winning runs.

Andy Pafko ran his hitting streak to 17 games with a ninth-inning home run that gave the Braves their triumph over Cincinnati.

Curt Simmons lost his 11th game when the Pirates got two runs in the eighth at Philadelphia.

Four walks allowed by Joe Presko in sixth inning plus an error gave the Chicago Cubs the two runs they needed to beat St. Louis.

Pafko Sparks Braves in Win Over Cincinnati

CINCINNATI (AP)—A long time baseball team called the Boston Braves which had a rough time beating anyone, Cincinnati included.

The Boston Braves finished in seventh place and lost 13 of their 22 games with the Redlegs (then called the Reds).

But, oh! how things changed when the Braves moved to Milwaukee.

The Milwaukee Braves now are runner-up to the league-leading Brooklyn Dodgers and have little trouble indeed with the Cincinnati Redlegs, Reds or what have you.

By clipping the locals, 3-2, yesterday afternoon, the Braves took the two-game series here and ran their season total to 11 victories in 17 decisions with the Rhinelanders.

Lefty Warren Spahn needed a mighty assist from Andy Pafko, slugging right fielder, to gather in his 17th triumph against five defeats and Andy came through with a game-winning home run in the dramatic ninth. Pafko also upped his hitting streak to 17 games with the blow.

The Redlegs leave tonight on another road trip. They'll open a three-game series at St. Louis tomorrow night.

Yesterday's Stars

Pitching—Jim McDonald. New York Yankees, gave up four hits in beating Washington, 2-0.

Batting—Andy Pafko, Milwaukee Braves, ran his hitting streak to 17 games with a ninth-inning home run that gave the Braves a 3-2 victory ove Cincinnati.

Charleston Takes 2 From Columbus

By THE ASSOCIATED PRESS

Third - place Indianapolis and fourth-place Kansas City tightened up the American Association flag race a couple of notches last night by respectively upsetting pace-setting Toledo and runneup Louisville.

Indianapolis now is 3½ games behind Toledo and Kansas City is six games out.

Lefty Dick Tomanek set down the Toledo Sox, 6-1, on three hits to gain his 11th victory for Indianapolis. Kansas City, aided by four Louisville errors, defeated the Colonels, 8-5. In other league games the last-place Charleston Senators made it three straight over Columbus by sweeping a pair, 6-3 and 5-3, and Minneapolis stopped St. Paul, 5-4.

Bucyrus Squad Starts Football Practice Games

BUCYRUS — Thirteen lettermen are expected to form the nucleus for the 1953 Bucyrus High School football squad, which holds its first workout at Lane Street Athletic field this afternoon under the guidance of Richard Frantz, new head coach.

Frantz, a graduate of Fremont High School and the University of South Carolina, has been assistant grid coach here since 1949 and was named to the head coaching post last spring following the resignation of Richard King.

Lettermen returning are: seniors, Jerry Folkmer, Ron Yausey, Forest Rowe, Jerry Kenefake, Bob Stauffer, Glen Butterman, Tom Smith, Dick Rehm and Bill Kennedy, and juniors, Ned Bibler, Ray Foreman, Frank Barth and Fred Frey.

Coach Frantz expected a turnout of about 60 candidates for the squad. Assisting him will be John Hutton, 32, formerly of Shadyside, Bob Wolfe and Merlin Apel.

Bucyrus gridiron fans are hopeful that the Redmen will make a better showing during the coming season than in 1952 when they scored one win, two ties and six losses.

The 1953 schedule includes four games at home and five contests on the road, opening at Tiffin Columbian Sept. 25 and winding up with Defiance here Nov. 13. Defiance replaces Mansfield Madison.

The Redmen's Northern Ohio League games include: Sept. 25, Norwalk, here; Oct. 2, at Galion; Oct. 9, at Willard; Oct. 16, Upper Sandusky, here; Oct. 23, at Shelby; Oct. 30, at Bellevue; Nov. 6, Crestline, here.

19-Inch Bass Jumps Into Boat, They Claim

WELLSVILLE, N. Y. (AP)—Ray Geer and his sons, Elwin and Ronald, came back from a fishing trip displaying a 19-inch, 3½-pound bass.

Their story—and they're sticking to it—is that the bass leaped out of the water and into their boat as they were bringing it into the dock.

'Educated' Jeep Serves Jet Planes

DAYTON, Ohio (AP) — Development of an "educated' jeep that puts damaged jet fighter run sights back in working order six times faster than the old way was disclosed today by Wright-Patterson Air Force Base.

The new jeep was born on the flight lines in Korea, where it helped keep the jets in the air. It is equipped with delicate instruments that quickly locate defective gun-sight parts for immediate replacement.

National Rifle, Pistol Shoots Open Long Run

CAMP PERRY, Ohio (AP)—Preliminary shooting started today as the national rifle and pistol championships returned here after an absence of 13 years.

More than 1,500 crack shots from throughout the nation were on hand for the matches that will cover a three-week period. The 98 separate events include three fields—high-power rifle, small-bore rifle and pistol.

Today's events included practice firing and competition in international-style matches in the afternoon. The purpose of the latter is to familiarize the Americans with techniques to be used in the world international championships at Caracas, Venezuela, next year.

Courses for the international firing usually are longer and there is no limitation on the type of equipment used. In American championships there are specific weight and trigger pull rules.

Pistol and small-bore competition starts tomorrow and runs through Aug. 25. Shooters in the big-bore classes get their chance between Aug. 31 and Sept. 7.

So many marksmen turned up that a complete tent city has been erected and a full battalion of Marines arranged to handle the ranges extending for a mile along Lake Erie.

The tournament is being held at this National Guard post for the first time since 1940. Prior to that time, they had been held here annually since 1907.

A 15-man British small-bore rifle team arived yesterday to compete for individual honors and to shoot against an American team at the conclusion of the matches.

The Americans will be defending the Pershing Trophy which they have held since 1939.

Two Killed in Separate Licking County Mishaps

NEWARK, Ohio (AP)—A 71-year-old man and an 80-year-old woman were killed in separate traffic accidents in Licking County yesterday.

Wesley O'Harrah of Columbus was killed in a two-car collision six miles northeast of Johnstown. Mrs. Etta Gill of Kirkersville was killed by a car on U.S. 40 near her home.

Detroit Wins 4-2

Tribe Drops 4th Straight; Hank Greenberg Puzzled

DETROIT (AP) — Even general manager Hank Greenberg had a hard time today trying to understand the sudden collapse of his Cleveland Indians.

Greenberg was a spectator yesterday as the Tribe dropped a 4-2 decision to the Detroit Tigers for its fourth straight defeat—two by last-place St. Louis and two by the seventh-place Tigers.

He said his only reason for leaving Cleveland was "to see it with my own eyes." After the game, he still was having trouble believing it.

Bob Lemon, seeking his 17th victory, drew the Cleveland mound assignment for today. Southpaw Ted Gray was picked to oppose him as the two clubs meet for the final game of the series.

Early Wynn's loss yesterday was his first to the Tigers in nearly three years and tacked a 10th defeat on his season record against 13 victories. Since June 6, 1950, when he was defeated by Hal Newhouser, burly Early had won 11 times against the Motor City club.

Both the Tribe's runs came on homers, by Wally Westlak ein the fourth and Wynn in the fifth.

The Tigers took a 1-0 lead in the second inning on a triple by Don Lund and Billy Hoeft's single and added two more runs in the sixth on a homer by Bob Nieman, a double and a single. Steve Souchock hit for the circuit in the eighth for an insurance run.

The Tribe returns home tomorrow night for a twi-night doubleheader with St. Louis that opens a 21-game home stand.

Girls' Softball All-Stars Stop Industries 19-7

An all-star team from the Marion Girls' Softball League finally stopped the Marion Industries nine Tuesday night with a 19-7 verdict over the league champions

The Industries team went into the game with part of its regular squad on vacation. It marked the first loss of the season for Sally Murray, Industries hurler, who had racked up eight wins in a row.

Murray gave up 12 hits in her losing effort and also belted a triple for the losers. Jean Ann Thompson was the catcher. Doris Huntley also blasted a three-base hit.

Veda McClelland of the Telephone Company and Eileen Sherman of the Marion Power Shovel squad shared the mound duties for the All-Stars They allowed five hits. Coleen Kneisley of the Telephone team and Jenalee Ward of the Shovel were the catchers. McClellan banged out a pair of doubles in four trips to the plate. Kneisley had three hits in four trips and Ward collected three for four, one a three-base knock.

The game was called after five innings because of darkness.

Farm Bureau Takes Steps in Building Plans

Contract Provides for Survey of Facilities at Bellefontaine Ave. Site

The first step has been taken toward a new Farm Bureau building on Bellefontaine Ave.

A contract was signed Wednesday night between The Marion County Farm Bureau Cooperative Association and the Planning and Development Division of the Ohio Farm Bureau, a firm of mill engineering specialists.

The contract provides for a preliminary survey of the building site, a proposed layout of buildings and facilities on the site, and an engineering analysis of the mill machinery placement. This will be done after an analysis of the agricultural demands of the trading area, a study of the livestock population of the area and of the service facilities required.

Arch Smith, head of the Planning and Development Division, said the preliminary plans should be completed by mid-October and, upon approval of the board of directors, construction could begin soon after that date. Actual construction and equipping will be done by contract, let by competitive bidding.

"If the authorization to proceed is given in October, the plant can be completed early next year in plenty of time for the grain season," Smith said.

Robert Eisele, president of the Board of Directors of the Farm Bureau, explained that contracts would be let only when sufficient stock and bonds with the association were sold to assure adequate financing of the venture, an estimated $100,000.

"A building fund campaign is now in progress," Eisele stated. "That should accomplish the purpose." Starting just 10 days ago the campaign has resulted in the placing of $38,200 by 96 investors. The campaign is continuing for the next several weeks and should be completed by the time the preliminary plans are completed.

NURSE'S AIDE KILLED

COLUMBUS, Ohio (AP) — Mrs. Mary A. Campbell, a 49-year-old nurse's aide, was killed today when her car was struck by a freight train in suburban Brice.

Grim Tale Told By Returnees

U.S. Flier Lashed to Pole and Left To Die

FREEDOM VILLAGE (AP)—Three Army corporals reaching freedom today told how an American flier was "lashed to a pole and died in the sun because he would not confess to germ warfare" charges.

The corporals, two of whom served 10 months in the hard labor camp annex to Camp 2 at Pyoktong, said another flier was chained to a wall in a place where he could neither stand up nor sit down.

At first the three were reluctant to talk for fear of causing hardships for Americans not yet repatriated.

Cpl. Irvin Edwards, 22, who was captured Dec. 2, 1950, while with the U. S. 7th Division, said the aviator who died had been taken to Manchuria for questions but would not "confess."

"They brought him back to Camp 2 and tied him to a post in the hot sun until he died," Edwards said. "He was starved. I don't know how long he had been without food. He was already three quarters dead and was so weak that chains around his arms and legs held him erect. He never confessed and died in about 24 hours."

Edwards said the pilot was dressed in GI clothing and was unable to say anything because of a gag in his mouth.

Cancer Research Gift Dedicated to Sen. Taft

CINCINNATI (AP)—A $100,000 donation for cancer research has been given to Christ Hospital Institute of Medical Research by former Common Pleas Judge Alfred K. Nippert as a memorial to Sen. Robert A. Taft.

Sen. Taft, who died July 31 of cancer, was an old friend of the former judge and Nippert said he presided at the first case Taft tried in a Cincinnati court.

Nippert, now vacationing in Virginia, told friends of his gift in letters sent here. He is chairman of the board of Christ Hospital and last year gave the hospital $400,000 for a new medical research building.

Bridegroom's 2nd Trip To Church Proves Costly

NORFOLK, Va. (AP)—Only a few weeks ago, Rudolph Hunt, 31, was married in Park Place Methodist church here.

Yesterday he was sentenced to eight years imprisonment for going back to the church and, with an accomplice, rifling its two strong boxes of $978.

Police Nab Driver, Find Auto Stolen

An Akron man who aroused a policeman's suspicions as he drove through Marion early this morning is being held in city prison pending filing of auto theft charges against him.

James M. Neal, 50, was arrested at 7:10 a.m today on W. Church St. when a Marion patrolman noticed him take a drink from a bottle as he drove along in a small truck.

After Neal was taken into custody, a check by police showed the truck was reported stolen from Hamilton at 2:32 p.m. yesterday by Charles Hayes of Columbus. Questioned, Neal admitted stealing the truck, Police Chief Tom Coon said today.

Hamilton police have been notified and will likely return Neal to Hamilton to face auto theft charges today or tomorrow, Chief Coon added.

TRAPSHOOTERS ELECT

DAYTON, Ohio (AP)—C. E. Huber, retired bus-line operator from Tiffin, Ohio, today was elected president of the Amateur Trapshooting Association of America. Huber succeeds H. J. Yoakum of Houston, Tex.

Van Fleet in Korea On Welfare Mission

SEOUL (AP)—Retired Gen. James A. Van Fleet came back to Korea on a welfare mission today, six months after giving up command of the U. S. 8th Army.

He is a member of an 11-man civilian group representing the American - Korean Foundation, which is prepared to give $500,000 in emergency aid to Korea.

Columbus Man Slated To Head Moose Order

DR. W. C. WILLIAMS

New Marion Dental Office Is Opened by Dr. W. C. Williams

Dr. W. C Williams, who recently passed the state board examination, has opened dental offices at 161 S. Main St.

A graduate of Ohio State University in June this year with B. A. and DDS degrees, he took the state examination June 25, 26 and 27. He entered the University for is pre-dental study in 1946 and entered dental school in 1949. He was graduated from Harding High School in 1944. His fraternity is Delta Sigma Delta.

Dr. and Mrs. Williams and their two children, Christa, 3½, and Nancy, 2, make their home at 511 Olney Ave Mrs. Williams formerly was Miss Mary Ehrick, daughter of Mrs. Mabel Ehrick of E. Church St. Dr. Williams' father is Cleon Williams of the Olney Ave. address.

He Beautifies Amusement Park

NEW YORK (INS)—Artist Herman Huseby once thought that beautifying an amusement park was "work for a sign painter" but he's changed his mind.

Huseby is the first Art Director ever employed by an outdoor amusement park. He looks on the job as the decorating of "a giant house" with "millions of people" living in it.

Huseby receives up to $1,000 for his serious paintings, but now he's switched to Rockaway's Playland in New York. He's trying—as he puts it—to "lift the level of outdoor amusement decor from the vulgar and jazzy to the purely aesthetic."

His job includes cleaning, painting, repairing, interior decorating, style co-ordinating and carefully nursing the hundreds of mechanical people that live at Playland.

Some of his "people" may be 30 feet high but that doesn't stop Huseby from dolling them up in the sheerest silks, velvets, brocades, ostrich plumes, rhinestones, spun glas and pearls.

His dummies must be dressed and their hair done according to the latest fashion trends, so Huseby finds research in the high fashion magazines a must.

On top of his worires about making the amusement park "elevating" Husehy must always keep in mind that the park has to be a carnival, both animated and durable.

However, Huseby still paints canvases that sell for high prices and also is the scenic designer for the Children's World Theatre in New York and the Northwest Lyric Opera Company in Seattle.

American automobile drivers burn enough gasoline over a holiday week end this year to fill 35 fully laden, average-size tank ships, according to the National Federation of Shipping.

Aim at Conserving Soil

Proper Land Use Urged by Officials

By JOHN ROBSON

"Every acre in its proper use." That, according to W. R. Williams of the Soil Conservation Service, is the main object of the conservation officials

They believe that if each parcel of land is put to its best and most productive use, the land will remain valuable for many years to come.

There are many problems facing the conservation officials, but they feel that with the cooperation of the farmers, the problems can be met and overcome.

When a farmer comes to the conservation office for help on his farm, a long-range plan is drawn up for his farm. An aerial photo taken of his farm reveals the contour and features the ea the contour and features of the land. Soil samples are sent to a special laboratory run by the government where the various types of earth are determined.

—:—

WITH THIS INFORMATION, local conservation officers then draw their plans for making the most of the land. These include recommendations for building waterways to provide proper drainage of the fields. These drain systems follow the natural slope of the land and are designed to minimize erosion.

Correct plowing of hilly as well as flat lands is also shown. Conservation officials indicate on their maps the direction each plot of land should be plowed and planted. This often results in water being trapped on the side of a hill rather than running freely downhill, taking the valuable land with it.

Strip farming is recommended in many cases to increase the fertility of the land. This process involves planting a certain crop in one strip following the contour of the land and several other crops in adjoining strips following the same contour.

—:—

ROTATION OF CROPS is another matter which the conservation officers recommend. Proper rotation will assure the preservation of fertile land on the farms for years to come. This is a long range program and generally takes several years to make the complete cycle

Conservation officials do not expect the farmer to complete the plans drawn up for him in one year or even in five. They realize that he must continue to make his farm produce enough money to support it and so do not rush the program through to completion.

Proper conservation practices not only take years to put into operation, but must also be continued after they have been completed. The need for conservation, however, is extremely great, Williams said.

—:—

EROSION HAS seriously damaged 280 million acres of land in the United States This is equal to the combined areas of Illinois, Iowa, Missouri, Kansas, Nebraska, and Wyoming. There are now left 460 million acres of land which are suitable for crops. That is enough good land left to support the country, but there can be no more erosion permitted if the United States is to continue to produce as much as has been produced in the past.

Conservation advice does not cost the farmer any money. The Conservation Service will furnish any technical help which is needed by the farmer. The farmer will supply his own materials and labor for carrying out the program outlined by the officers, but no charge is made for the data and information supplied by them. The Soil Conservation Service in Marion County is located at 194 S. State St.

MULE AS A SPARE

MEMPHIS, Tenn. (UP) — Mrs. George Houston wouldn't be surprised if one motorist here distrusts modern transportation. She spotted a sporty new auto going by her home—with a mule trotting along beside it.

Work Finished on City's 1954 Budget

Million Dollar Spending Is No Dream for Auditor

By CHARLES MARTIN

Ever dream you'd like to draw up a budget to spend—but not over-spend—nearly a million and a half dollars a year?

Doing just this is not a dream but reality for Marion City Auditor Elmer Shaw and his staff. It's but one of the many problems of city financing solved by his office and one that must be solved each year about this time.

For some three or four weeks, Shaw and his assistant auditor pour over estimates of city income and operational expenses for the coming year.

Establishing these estimates for next year's budget begins with noting actual income and expenses for 1951 and 1952 and the first six months of 1953. Added to this information is the estimated income and expenses for the last six months of this year.

—:—

BY COMPARING these figures, an estimated income and expense budget for 1954 is drawn up. This is then revised during the meetings, usually three, with the finance Committee of City Council.

After approval by the committee, the budget is presented to City Council for approval, revision, or rejection.

In setting up the budget, the biggest problem is estimating total income from various sources and making certain total expenses stay well within the income.

"First and foremost," Shaw says, "we consider our debt needs for the year." This means that special tax money raised from levies outside the ten-mill limit is earmarked to retire portions of bonded debts.

For example, in the 1954 budget, one of the first considerations is the retirement of three sewer bond issues of 1946 which totaled $1,295,000 and are due for final payment in 1971. During 1954, the city must appropriate $25,000 to pay the principal and another $5,750 for interest on this amount.

—:—

THE SAME HANDLING is given the 1946 airport bond issue and the 1951 sewage treatment plant bond issue

Altogether the three bond issues add up to total principal payments of $70,000 and interest of $21,297 next year for a grand total of $91,297.

This taken care of, Auditor Shaw next turns to consideration of income to and expenditures from the General Fund.

"This is the most flexible and important fund considered," he explained. Revenue for it is from taxes on real and classified property in the city, the city's share of sales tax, liquor permit tax, cigaret license fees, inheritance tax, amusement tax, fines and costs collected by Municipal Court, parking meter collections, and fees from numerous other permits issued by the city.

Budgeting these funds, Shaw first allocates money to cover the fixed expenses such as salaries of city employes and office expenses of the legislative, administrative, and judicial branches of municipal government.

—:—

OTHER EXPENSES at the top of the general fund list include equipment and operational costs of the safety-service department, and police, fire, engineering and health departments

Other expenses which must be provided for in the general fund include street lighting and fire hydrant rental, rental of city hall office space in the Eagle's Building, industrial insurance, fire and storm insurance on city buildings, election expenses, parks and recreation program, police and fire pension funds, operation of the sewage treatment plant, and the city's portion of special assessments.

Shaw pointed out that of taxes collected in Marion within the 10-mill limitation the city gets 13 per cent for its operational expenses.

Most of the other funds maintained by various sources of income are also earmarked for some specific use, Shaw said. In this category is the income from City Hospital which is used to cover salaries of hospital employes and other operational costs.

—:—

FEES COLLECTED for garbage and rubbish collections are also used to pay costs of operation of the sanitation department, money from the motor vehicle and gasoline taxes go to street repair and maintenance, income from the veterans' housing project is returnd to operational expense and the same is true of Municipal Airport.

All this "figuring" has taken place in Auditor Shaw's office during the last three weeks Next year's city budget is now completed and will be presented to City Council at its Aug. 24 meeting, Shaw said.

SEVEN CAME

MEMPHIS, Tenn. (UP)—Glenna Dean Hess, now 14 (twice seven), was born on the seventh floor of the hospital at seven a.m., on the seventh day of the seventh month. She weighed seven pounds and seven ounces at birth, entered Sunday School at Seventh Street Baptist Church.

SAW BROOD INCREASE

OAKVILLE, Conn. (UP) — Mrs. Lucy B. Bradshaw, 77, died, leaving 75 direct survivors—six sons, a daughter, 30 grandchildren and 38 great grandchildren.

Former Bucyrian Weds In West Coast Service

Special to The Star

BUCYRUS — Announcement is being made here by Mr. and Mrs. George T. Dustman of the marriage of their daughter, Dorothy, to George H. Hayes, the son of Mrs. Sanford MacKinnon of Brewer, Me.

The couple was married Wednesday night, Aug. 12, in the parsonage of First Methodist Church in Hollywood, Calif., with the church pastor, the Rev. William Hessell, performing the single ring ceremony.

Miss Lucille Schifer was maid of honor and Mrs. Gene Ewing was a bridesmaid. Both Miss Schifer and Mrs. Ewing, former Bucyrians, and Miss Dustman moved from Bucyrus to Hollywood last November.

Mrs. Hayes, a graduate of Bucyrus High School, attended Bowling Green State University and now is employed as a secretary at the Pacific Loan Co. in Los Angeles. Mr. Hayes, a 1952 graduate of the University of Maine, is an engineer at the Lockheed Airplane works in Burbank. They will live in Hollywood.

CIVIC SPIRIT

CAPE ELIZABETH, Me. (UP) —Town construction workers were surprised when they reported to the job one morning and found their street roller shiny with a new coat of paint. They theorized that a civic-minded resident couldn't stand the sight of the rusty roller any longer.

TEXAS BOAST

ALAMO, Tex. (UP) — Alamo claims to be the only city in the 3,200-population class having a police car with a two-way radio—and it didn't cost a cent of public funds. Police Chief Troy Bone uses his own automobile. He secured the $600 for the radio by public subscription.

KIDNEYS MUST REMOVE EXCESS WASTE
Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.
Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Kids Stage Carnival To Help Red Cross Greek Relief Fund

Marion County's Red Cross Greek Disaster Relief fund amounts to $1.79 today, thanks to a group of youngsters residing in the east part of the city.

The fund, mostly in pennies, represents the take at a carnival staged Tuesday afternoon at the home of Michael and Barbara Shuman, 242 Forest St. The money was taken to the local Red Cross office Wednesday by Dick Jeandrevin.

Admission was free but once on the "lot" the customers parted from their cash by patronizing the dart games, ball throwing, at the candy bar booth, jewelry counter and refreshment stands. The jewelry counter was stocked with articles from home, a couple of the mothers took time out to provide cookies and cupcakes and somebody's dad knew a man that was a candy salesman.

The carnival lasted for about two hours, Dick reported. "There weren't too many customers but what there were stayed on and spent their money," he added.

The carnival idea was carried out as a sort of a last big fling before school starts, and the "company" voted to give the proceeds to some good cause.

Staging the carnival were Dick Jeandrevin, Michael and Barbara Shuman, Joan Jeandrevin, Marion King, Linda Carlisle, Joan and Jean Lehner and David Dodds.

The local Red Cross Chapter, with other chapters throughout the nation, has been asked to contribute to the Greek Disaster Relief Fund to care for thousands left homeless by the recent earthquakes, and provide health items and toilet articles for 30,000 homeless Greek school children.

Baby, Thrown From Car, Lands Unhurt on Pillow

BINGER, Okla. (AP) — Two-year-old Phillis Clay was thrown 30 feet from a car driven by her mother when it veered from the highway. She landed unhurt on a pillow also thrown from the car.

But her mother, Mrs. Minnie Bell Clay, 29, was killed as the car hurtled into a melon patch after striking a pipe jarred loose from a passing truck.

Police Chief Follows Wrong 'Suspicious' Car

PICHER, Okla. (AP)—Police Chief Gene Crockett, seeing a suspicious-looking car turn into an alley while watching for narcotics runners, jumped into another officer's car and gave chase yesterday.

Losing the quarry, he returned to find his own car stolen.

Pastor Urges Thief To Return Money

LOCKPORT, N. Y. (AP)—"You stole from God," the pastor of Lockport's Baptist Church admonishes the thief who took $60 from an offering box during Sunday services.

Return the money and ask God's forgiveness, the Rev. Harleigh M. Rosenberger advised in an open letter to the thief. It was published in the Lockport Union Sun and Journal.

"This may be the turning point in your life. Let it be toward God and not evil," the pastor said.

BUDGET NOTICE

The annual budget of Pleasant Local School for the year 1954 has been compiled according to law, and a public hearing will be held on same Monday evening, Sept. 7, 1953 at 8:00 P.M. at school house.

Labor Day Picnic Cake

BANANA SPICE CAKE with a broiled-on frosting for picnics

By CECILY BROWNSTONE
Associated Press Food Editor

What's on the schedule for Labor-Day weekend? Is it a picnic you're going on? Then here's a special Take-Along Banana Spice Cake to which all our taste-testers gave high rating. The cake is frosted and cooled right in the pan; then it may be covered with foil and put in the picnic basket. It's a moist, fine-textured and delightfully flavored dessert, and the frosting adds just the right sweetness. Evaporated milk is used in both the cake and the frosting; you might also want to take along a small can of the milk for coffee. In that case, don't forget the opener.

TAKE-ALONG BANANA SPICE CAKE

Ingredients: 1¾ cups sifted flour, 1 teaspoon baking soda, ½ teaspoon salt, 1 teaspoon cinnamon, ½ teaspoon cloves, ¼ teaspoon nutmeg, 2-3 cup mashed ripe banana (about 1½ medium bananas,) ½ cup butter or margarine, 1 cup sugar, 1 egg, 2-3 cup evaporated milk (undiluted), 2 tablespoons lemon juice.

Method: Sift together the flour, baking soda, salt, cinnamon, cloves and nutmeg. Slice bananas into a small bowl; mash fine (so there are no lumps) with fork. Measure; there should be 2-3 cup. Cream butter and sugar; beat in egg well. Stir lemon juice into milk. Add dry ingredients alternately with soured milk to creamed mixture; begin and end with dry ingredients. Stir only until combined each time; do not overbeat. Mix in mashed banana thoroughly.

Turn into greased 9 by 9 by 2 inch baking pan. Bake in moderate (350 F) oven until a cake tester inserted in center comes out clean — 40 to 45 minutes. Remove cake from oven to cooling rack. Prepare Broiled Frosting mixture; spread on cake; place under broiler until mixture is bubbly. It takes but a minute or two generally for frosting to broil, so watch cake carefully and do not scorch. Remove from broiler and cool in pan on cooling rack. Makes 9 to 12 servings.

BROILED FROSTING

Ingredients: ½ cup chopped blanched almonds, 3 tablespoons butter or margarine, ½ cup firmly packed brown sugar, 1 tablespoon evaporated milk.

Method: Spread almonds in shallow pan and brown lightly under broiler. Melt butter in small sauce pan; mix in toasted almonds, sugar and milk. Spread on baked banana spice cake and broil as directed above.

LISTS FIREMAN'S WOES

GALION — "One of the worst things a fireman has to contend with is people chasing fire trucks when there is a fire," opined Fire Chief John Durtschi, Tuesday night. He stressed this in a talk to members of the Lions' Club at the regular dinner-meeting at Hotal Talbott. Chief Durtschi also said that people will not pull over to the curb and give the fire truck free passage when they hear the sirens and all of the traffic lights are red. He also explained the "ins and outs" of the fire department, and explained the kind of equipment used and when.

Green Camp Lodge To Help Sponsor Rest Tent at Fair

Special to The Star

GREEN CAMP — Scioto Lodge 772 will be in charge of the Knights of Pythias and Pythian Sisters rest tent at the Marion County Fair on Thursday, Aug. 27, George W. Reynolds, chancellor commander, has announced. Members of the local Pythian Sister temple will also be present that day.

The rest center is similar to one the grand lodge conducted at the state fair in Columbus last year.

Various lodges and temples from Marion County will be in charge of the tent on other days of the fair.

The building committee and trustees have been authorized to receive bids on remodeling the present lodge building and to get bids on suggested additions to the present structure.

DIVIDEND

FAIRMONT, W. Va. (UP) — A local drug store figured to attract customers to its one-cent sale by placing a glass container outside the store with 100 pennies inside. A recount at the end of the sale showed there were 35 more coppers than when the container was first displayed. Passersby apparently thought they were contributing to a "cause.

The eyes of a baby at birth are about two-thirds as large as they will be at the age of 8 or 9.

Marion Men To Attend Commandery Conclave

Winthrop P. Ames, commander of Marion Commandery No. 36, Knights Templar, and other members of the commandery will attend the 111th annual conclave of the Grand Commandery of Knights Templar of Ohio in Toledo Oct. 4, 5 and 6.

Ames has been placed on the topical reference committee at the conclave.

The annual review and parade will take place on the afternoon of the second day and that evening, there will be entertainment, the grand march and the customary grand ball and buffet luncheon.

It is expected that all of Ohio's 83 commanderies will be represented in the conclave parade. Chairman for the grand conclave is Clayton G. Cousino of Toledo, the grand junior warden. Chesterfield J. Holley of Bridgeport is the grand commander.

ORCHIDS TO YOU

GORDON, Neb. (UP) — Townspeople here brighten up life for teachers and board of education members by presenting them with orchids for outstanding service to the community.

HOME HAZARDS

STRATFORD, Conn. (UP) — After a safe motoring trip in heavy holiday traffic, Peter V. Bedgio and his family had a rousing homecoming. As he drew to a stop, Bedgio was startled when his excited cocker spaniel leaped from the back seat into his lap. His foot jammed down the accelerator and the car plunged through the garage door, out through the rear wall and into a second garage, smashing into another machine. All escaped injury.

To the best of scientific knowledge, all North American and European freshwater eels spawn in an area in the Atlantic Ocean near Bermuda.

Service Director Praises Project

Land Fill Garbage Disposal Plan Called 'Success'

After some two and one-half years of operation, Marion's land-fill system of garbage and rubbish disposal was called highly successful today by Safety-Service Director Ralph Forrest.

It has eliminated an unsightly hog farm and a vermin-ridden pile of rubbish from the city dump, he explained. Previously the method of garbage disposal was to feed it to hogs.

In addition, sanitation experts agree that this is one of the most sanitary and economical methods of garbage disposal possible, he said.

Elimination of the hog farm and rubbish pile also removed the danger of the spread of infectious disease originating in the dump and carried by rats, mice, insects and in the meat of the hogs.

Among the first cities in the state to change to this system, Marion adopted the plan when the state legislature threatened to outlaw the hog farm method of garbage disposal. Sanitarians pointed out that hogs fed on garbage were subject to a much higher disease rate than those fed on a grain diet.

—:—

UNDER THE OLD METHOD it was necessary to separate the garbage and rubbish and this called for special handling by sanitation department crews. With the land-fill system there is no need to separate rubbish and garbage.

The city's fleet of four new automatic packer-type refuse trucks are equipped to handle mixed garbage and rubbish in an efficient sanitary manner.

To accomplish this, city crews dump the refuse into a semi-circular tray at the rear of the trucks. When this tray is filled, hydraulic pressure is used to move a horizontally-hinged tailgate in an arc through the tray. This pushes the refuse forward and up over a baffle plate. Dropping forward of this baffle the refuse is then compressed into the forward part of the dump body by a hydraulically-operated ram.

Completely enclosed and sealed in, the dump body is constructed so that neither solids or liquids and only a minimum of odor can escape. This prevents spillage of any garbage from the trucks on the way to the city dump, Forrest said.

Once loaded with 27 cubic yards of loose garbage compacted into only 9 cubic yards, the trucks proceed to the city dump. There the entire rear end of the dump body is raised by hydraulic action. The truck is backed to the edge of an eight-foot deep trench and the dump body raised—again by hydraulic pressure—to a steep angle. The compacted garbage falls out of the truck into the trench.

—:—

EACH DAY the refuse dumped into the trenches is covered with thin layer of soil to keep out flies and other insect pests. When a trench is filled to capacity, it is covered with some two feet of soil. Also before covering, the garbage is packed down solidly by running a bulldozer over it several times.

With some 45 acres of land at the city dump, Forrest estimated that no additional land for use in the land-fill disposal system will be needed for 30 years. He said the city uses about three acres of land a year.

Actually at this rate the present acreage would last only about 15 years. However, this is dependent on using trenches only four feet deep. Presently, the sanitation department is using a power shovel to dig trenches to a depth of eight feet which in effect doubles the capacity of the land.

In order to continue this plan Forrest recently asked City Council for permission to advertise for bids for purchase of a one-half cubic yard power shovel. Presently the city is leasing a shovel of this size for use at the dump.

Another advantage of the land fill system is that it means no waste land, Forrest said. Under this method, the land may be returned to farming in about 20 years, he said. At that time, the garbage will have decomposed to the point where hills created by the garbage will settle to their original level.

—:—

IN ANSWER TO some complaints that garbage has been spilled on the way to the dump, Forrest said this was from trucks operated by private haulers in violation of the city code. He pointed out that it is illegal for anyone to haul garbage in Marion other than city crews using city-owned trucks.

However, private haulers may carry rubbish to the dump, he added. This requires the hauler to pay a fee of 35 cents for each cubic yard of rubbish disposed of at the dump.

IN THE SERVICE

Two Marion men are at Ft. Campbell, Ky., undergoing two weeks of training with the 2118th ARASU.

Capt. Joseph H. Bingham of 662 Irey Ave. is assisting the post ordnance office in the ammunition section and First Lt. Hubert H. Goerlich of 218 Olney Ave. is assisting the post S-4 at the reserve unit's summer camp area issuing supplies.

Capt. Bingham is an insurance underwriter for the Western & Southern Life Insurance Co. During World War II, he was commanding officer of the 76th Ordnance Company which was in charge of the armament warehouses in San Juan, Puerto Rico.

Lt. Goerlich, employed by the Marion Paper and Supply Co. as buyer and warehouse foreman, was with the Quartermaster Subsistence Section at Camp Sibert, Ala., during World War II. He also served as a basic training instructor at Ft. Lee, Va.

—:—

Cpl. Carroll C. White, 21, son of Mrs. H. E. Newman of near Richwood is serving with the 34th Infantry Division in Korea. He entered the service in December, 1951, and prior to that was employed with the Swartz Motor Sales of Richwood.

—:—

Marine Cpl. William E. Walter, son of Mrs. Irene Walter of 333 Nye St. has graduated from the ordnance and gunner school at the Marine Corps Air Station at Santa Ana, Calif.

Cpl. Walter, who entered the service in December, 1951, will be discharged next December. He and his wife, the former Alice Taylor of Marion, and a son make their home in Santa Ana.

He attended Edison Junior High School and was employed as a painter at the Marion Power Shovel Co. before entering the service. He took his basic training at San Diego and then went to Santa Ana to the Ordinance and Gunnery School..

He has a brother, Pvt. Dale Walter, who is in the Army. He is taking a truck and tank course at the Atlantic General Depot at Atlanta, Ga. He also attended Edison Junior High School and entered the service last April, taking his basic training at Ft. Hood, Tex.

TRUCKER STRIKE ENDS

AKRON, Ohio (AP)—A nine day strike of AFL bakery drivers against Continental Baking Co. and Purity Bakeries Corp. ended today.

Three U. S. Presidents, Johnson, Jackson and Polk were born in North Carolina.

Red Wheat Suggested For Farmers in Ohio

Officials of the Ohio Agricultural Experiment Station today advised Ohio farmers to plant soft red winter wheat for a higher profit. This wheat is good for cakes and crackers.

The officials pointed out white wheat does not have as many proteins as the red wheat, and was not as good in Ohio as the red varieties. The agricultural station also said hard wheat types were not as profitable as the softer varieties. The red wheat produces from 10 to 20 cents more per bushel in Ohio than in other states because of the reputation farmers in this state have achieved over the years.

SHIRT SHIFT

TOLEDO, O. (UP) — Command officers of each shift of rookie policemen here receive a bulletin each week, but one was unique. "Eighteen police academy-trained recruits will be assigned to initial uniform duty June 1. There will be six men to a shirt."

I LOST 38 POUNDS THANKS TO RENNEL

SPRINGFIELD, OHIO—"I had read about Rennel Concentrate and what it had done for so many others so I decided to try it. I'm glad I did," writes Mrs. B. M. Roy, R.D. No. 3. "I started losing weight the very first week. When I started with Rennel I weighed 178 lbs. Now I weigh 140 lbs., and I actually feel 10 years younger. I certainly am recommending Rennel to all my friends, as I know it is the easy and safe way to reduce."

Thousands have found this simple home recipe the safe economical way to reduce. Costs only $1.40. No calorie counting or rigid diet planning. Ask your druggist for 4 ounces of liquid RENNEL CONCENTRATE. To this add enough unsweetened grapefruit juice to make one pint. Then take two tablespoonfuls twice a day. If you are not satisfied with the results from the first bottle return it to the manufacturer for your money back. See your druggist today for RENNEL and regain your healthy normal weight.

STRUCK BY LIGHTNING. Pretty 17-year-old Mrs. Joseph Russell of Orlando, Fla., smiles from her hospital bed while recovering from effects of a lightning bolt which struck her in the stomach, causing temporary unconsciousness and paralysis plus head injuries. While combing her hair in the kitchen of her home, lightning struck wiring, jumped to a sink and then struck hapless Mrs. Russell. "Glad it didn't damage my new refrigerator," was her comment. The nurse is Miss B. Hopper.

Conservation Center For Youth Planned

PARMA, N. Y. (UP)—A Conservation Youth Center, with facilities for everything from fly fishing to contour farming, is planned for erection on 82½ acres of land near here. It is believed to be the first such project in the nation.

Thomas H. Crone, president of the Northwest Conservation Association, said the plan "is to establish a center where our youth can assemble, work and play, under the best environment possible. We must start with youth that conservation may be safeguarded in the future."

Included for the area's young will be Boy Scout and youth camping locations, workshops for teaching outdoor skills pistol and rifle ranges, fishing ponds and swimming holes.

The Northwest Conservation Association Inc. is an area group in Parma, Greece, Hamlin and Rochester, N. Y. that emphasize youth activities.

PARALLEL CAREERS

HINGHAM, Mass. (UP) — Two brothers head the Hingham and Braintee Rotary clubs respectively. Nathan L. Whitten is president of the Hingham Rotary and his brother heads the Braintree Rotary. Both are treasurers of cooperative banks in their respective towns.

OPEN HOUSE

CHADRON, Neb. (UP) — Residents of this area point to a sign recently erected on the ranch of B. G. Pinney near here as an example of western Nebraska hospitality. The sign reads: "Hunt and fish all you damn please. When the bell rings, come to dinner."

WANTED
Growers in Marion and Crawford Counties
To produce 75,000 bushels of CORNELL WHEAT for 1954 harvest season.
Have purchase agreement with one of the largest Milling Concerns in the U.S.A. for a specific milling purpose.
For the ninth (9th) consecutive year CORNELL WHEAT has out-yielded all others in bushel (yield) per acre, ranging this year from 45 to 62 bushels in Ohio and 72 bushels in Indiana, and quite frequently commands a premium over other wheat, depending on quality and grade.
CORNELL is a Hardy Winter Wheat, will stand a rugged winter, stiff straw, combines well.
Registered Canadian No. 1 seed, treated ready to sow, for sale by:
